The Essential Works of Ernest Holmes Ernest Holmes, 2019-06-03 The term Science of Mind applies to the teachings while the term Religious Science applies to the organizations. However, adherents often use the terms interchangeably. Content: Creative Mind: each soul must discover for himself that he stands in the midst of an eternal creative power which presses itself around his own thought and casts back to him glorified all that he thinks. Creative Mind and Success is a spirited guide to mental wellness and business success. The book provides answers for better comprehending the mind's creative power and explains how positive thinking can improve your life and help achieve prosperity and financial success. The Science of Mind proposes a science with a new relationship between humans and God. Holmes writing details how people can actively engage their mind in creating change throughout their lives. Explanations of how to pray and meditate, heal oneself spiritually, find self-confidence, and express love led Holmes to believe Religious Science is a philosophy, a faith, and a way of life.

Essential Transcendentalists Richard G. Geldard, 2005-10-06 Interest abounds in the work of the Transcendentalists such as Emerson, Thoreau, and Bronson Alcott. Each year tens of thousands of readers rediscover Transcendental thought in books and articles and in visits to historic sites such as Walden Pond. But few appreciate the truly mystical and contemplative qualities of the Transcendentalists and the spiritual movements and figures they have since inspired. As Richard G. Geldard, one of today's leading scholars of Emerson, illustrates in *The Essential Transcendentalists*, Transcendentalism adds up to a school of practical spiritual philosophy that aims to guide the individual toward inner development much like that of Stoicism in Western antiquity. This current of New England mysticism has influenced modern-day luminaries as diverse as essayist Annie Dillard and Ernest Holmes, founder of the worldwide Religious Science movement. Through revealing commentary, historical overview, and selections from classic works, *The Essential Transcendentalists* provides a distinctive and heretofore neglected examination of the spiritual breadth and depth of Yankee mysticism.

Mitchell,2014-08-19 What you will discover in 32 Easy Lessons How really simple everything is We are all one within a universal field of energy

Intention The power behind affirmative prayer How our thoughts and beliefs attract like energy and experiences The healing power of scientific prayer The power of being an observer without expectations The deep mystical love underlying all aspects of the universe Scientific discoveries rich in spiritual awakening 32 Easy Lessons reveals the essence of who we are at our most powerful level When we understand how our mind affects the metaphysical beyond the physical it all begins to make sense There are gold nuggets in this treasure trove to enrich your life s adventure Mary Mitchell has been an avid student of the science of our mind and metaphysics for over twenty years Her deep study has resulted in popular classes and lessons that explore the hidden power of what lies beyond the physical and forces of energy that we can control through the power of our mind It s true there is a power for good in the universe and you can use it **Is this the Best God Could Do?** Sarah Tirri, 2011-03-03 Is This the Best God Could Do nonfiction approximately 115 000 words was born of a crisis of faith of the most cruel kind the loss of my mother who lingered on the brink death for five weeks and that is where the book begins I was living the American dream a happy wife and mother and by most measures charmed and then she died suffering terribly in the process in spite of my ardent prayers Like many in this position I felt that God had let me down but once my grief passed I realized that the God of traditional Christianity keeps us in thrall by fear and guilt by insisting we are small when we are really quite big beings When the World Trade Center collapsed I also realized that the end of the world might well be upon us because it is a self fulfilling prophecy brought about by the zealot believers in the Abrahamic religions fear carried to an illogical extreme This epiphany made me angry Is This the Best God Could Do is also the result of that anger However although the topic is obviously deadly serious I debunk the warped monotheism of the Big Three with humor and wit as well as reasonable albeit edgy argument What follows the section in which I recount the loss of my mother and the realization that the Abrahamic version of God has been messing with us for a couple thousand years is part dialogue with that big guy picture Groucho Marx as interlocutor Hi God of Christianity Sarah here I can appreciate your dilemma I really can But the next time one of your angels gets out of hand please try to take care of the problem instead of making it one of ours part personal history and part reasoned deconstruction But the conclusion I reach about religion does not amount to an advocacy of atheism Although the monotheistic God is discounted as a manmade thing one used to control us I also argue against the godless scientism of Richard Dawkins The God Delusion Sam Harris Letter to a Christian Nation and Christopher Hitchens God is Not Great In fact I argue against this limited perception of human being as a random function of extraneous forces in favor of a more profound participation of humans in reality leading to a profound spiritual transformation on the part of individuals and eventually all of humanity I also argue for a kind of pandemic version of the dramatic wake up effect Eckart Tolle s concept from A New Earth I experienced when my mother died The human race indeed the very planet is going through extraordinary changes all cause for great alarm among the monotheists as the beginning of the end I insist in Is This the Best God Could Do that on the contrary our situation is karmically inevitable and the dire straits in which we find

ourselves an invitation to spiritual growth and thereby a renewal of civilization I also call for those born to relative wealth the American populace in general but also most of the Western world to accept responsibility for charting the way forward because it is easier to evolve beyond the traditional notions of religion when one's belly is full and one is warm and dry But Is This the Best God Could Do is not just a polemic about the medieval grip of fundamentalism that holds humans back from the self awareness necessary to find a way forward through the difficulties of history to an enlightened way of life the book also charts the path I offer guidance to the reader for achieving the kind of awareness that allows them to hear God's voice and to participate in the world as an active agent instead of being just a passive believer to understand the magnitude of our spiritual reality Although my book is utterly unique in its mixture of elements the strident debunking of monotheism the hopeful recognition of the bigness of humans as spiritual beings to stand in opposition to the smallness of fear and guilt a hope filled recipe for saving us from ourselves and memoir **A Year on the Journey** Deanna Allcorn Smith
