Taxation for Sustained Prosperity. Dr. Samuel Tadesse, 2022-06-22. The primary business of government is to develop, implement, and strengthen the conditions that enhance the quality of life of all citizens. Taxation is required to fund government operations to produce and deliver the essential public goods and services that enhance and strengthen citizens' quality of life and standard of living. Countries like Ethiopia that are not endowed with natural resources such as oil, minerals, and precious metals rely heavily on tax revenues collected from citizens, residents, and businesses. To effectively achieve this goal, government policymakers must understand what matters for quality of life, what must be done to enhance citizens' quality of life, how the government would fund the programs designed to improve citizens' living standards over the next ten years, and how the government must collaborate with citizens, businesses, residents, and development partners to implement and manage programs that tangibly improve citizens' quality of life. Citizens' quality of life and living standards are inextricably linked to the quantity, quality, and access to education, healthcare services, clean water, sanitation, agriculture, and nutritious food supplies, peace, justice, and security, transport, and communication infrastructures, including roads, bridges, telecommunications, and internet connectivity, among others. Quality of life and citizens' living standards are also conditional on citizens' income-generating abilities, productivity, and overall national income equality. Developing and strengthening the conditions that enhance citizens' standard of living require massive amounts of investments. A primary source of funds is tax revenue collected from citizens, businesses, and residents. Taxes are imposed by law. This book links taxation with citizens' prosperity and well-being. It identifies how a tax policy should be formulated and how effectively, equitably, and efficiently taxes should be collected.
