Schooling for Sustainable Development in Africa Heila Lotz-Sisitka,Overson

Shumba,Justin Lupele,Di Wilmot,2016-11-11 This book considers the scope and dynamics of Education for Sustainable Development ESD and learning in schools in Africa It explores the conditions and processes that support such learning and examines how ESD in schooling can improve the quality and relevance of education The quality of education has been defined internationally as a key concern for educational institutions around the world including schools in Africa The models of quality are often limited to performance based approaches and or inclusive approaches The contributions in this book show that there is more to a discussion on educational quality in Africa than performance success and or inclusion The chapters explain how ESD brings a new relevance to education in Africa and at the same time sounds the beginning of a new concept of quality education The volume presents a collection of experiences in creating and supporting quality learning processes through a variety of ESD practices

On Results of the Reform in Ethiopia's Language and Education Policies Catherine Griefenow-Mewis,2009 This publication reflects the results of the Ethiopian education reform as well as the exceptional efforts that multiethnic Ethiopia undertakes in order to cope with the challenges arising from the population explosion More than 55 per cent of the 77 million Ethiopians are under the age of 18 years The great social and political changes started in Ethiopia at the beginning of the 1990s have resulted in the substitution of the educational system based on Amharic and English by one which uses a multilingual approach According to

the Ministry of Education 22 out of the 84 languages spoken in Ethiopia are now used as media of instruction in primary schools The book presents the lectures delivered at the workshop On the Results of the Reform in Ethiopia s Language and Education Policy held at Addis Ababa University in April 2006 by Ethiopian education experts and a German research team Their contribution has facilitated a subsumption into the historical context and has given insight into the analyses of the use of 8 Ethiopian languages in primary schools in different regions of the country

Youth Employment & Youth Employment Programmes in Africa: The case of Ethiopia Ian Livingstone,1986 Dark Sides of the Startup Nation Sibylle Heilbrunn,2022-11-29 Israeli national neoliberalism has promoted innovation policies leading to an ostensible paradox At the center is a startup nation with a vibrant and successful high tech entrepreneurial ecosystem accumulating resources and enabling constant growth At the geographical and social periphery there has emerged a parallel society with often marginalized groups not able to keep up In one of the most unequal countries with a high rate of poverty entrepreneurial heroes are celebrated at the center promoting a myth that all could be self made successes At the periphery entrepreneurs are struggling to survive often pushed into precarious working and living conditions Applying critical theory discourse this book illustrates how neoliberalism and entrepreneurship are intertwined and how the startup nation has evolved in Israel It explores how national neoliberal state policies have targeted technological innovation as a tool to obtain a competitive advantage in the international arena rather than aiming at increasing economic achievements and well being for all It will demonstrate that the Israeli entrepreneurship scene exemplifies the existence of parallel entrepreneurial societal spaces analyze the positionality of entrepreneurs belonging to a variety of groups that characterize Israeli society and uncover structural disadvantages and related levels of precarity as well as existing links between entrepreneurial advantages and disadvantages mobility and varying degrees of social marginality Dark Sides of the Startup Nation sheds light onto the problematic and sometimes contradictory myth that entrepreneurship is meritocratic and that neoliberal capitalism provides everyone with equal opportunities to succeed The book will be of interest to researchers academics policy makers and students in the fields of entrepreneurship and small business management responsibility and business ethics and technology and innovation *Ethiopia Observer* ,1964 Includes special issues Revolutionary Struggles and Girls' Education Thera Mjaaland,2021-07-27 Revolutionary Struggles and Girls Education At the Frontiers of Gender Norms in North Ethiopia argues that at the base of girls poorer performance than boys at secondary school level when puberty has set in is the symbolic violence entailed in sanctioned femaleness Informed by the modesty of Virgin Mary in Orthodox Christian veneration it instructs girls to internalize a holding back which impinges on her self efficacy and ability to be an active learner Neoliberally informed educational policies and plans which have co opted liberal feminism also in Ethiopia do not address hard lived gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity Despite women s courageous contribution at a literal frontier during

the Tigrayan liberation struggle 1975-91 where they fought on equal terms with men and despite the tendency that girls outnumber boys at secondary level in the present context sanctioned femaleness constitutes a frontier for girls educational success and transition to higher education. In fact when teaching learning continues to be based on memorization rather than critical thinking the very transformative potential of education is undermined also in a gendered sense. **Educational**

Education in Africa Vol. 2 Woube Kassaye, 2024-12-31 This book the second of two volumes focuses on the conceptualization of Indigenous Knowledge and Curriculum Ethiopian African Philosophy and the possibilities of Indigenization Africanization of African Education. Its main purpose is to overview African Education and its curriculum development with particular emphasis on Indigenization and Knowledge Production in Ethiopia and come up with curriculum model that fits for Africa.

My Lifelong Journey from Livestock Caretaker to a Climate Change Advocate Mengistu Woube, 2024-10-01 The main purpose of writing this book is to share my lifelong experiences gained throughout the years covering major topics including the environment and climate change that I felt are important to share with my readers. The topics depict my accumulated knowledge and skills and the challenges I faced indicating how each of us go through ups and downs in life. Much of the discussion focuses on my exposure to tough and successful times in Ethiopia, Sweden and in 30 other countries around the globe. The second purpose of preparing this book is to inform my readers about the Ethio-Swedish historical links and current relationships and to answer a primary question that comes to mind and that is what can we learn from Sweden how Sweden handle environment and adopt climate change as well as to thank the Swedish people and government for their kind provision of scholarships and funds for my higher education research community development and overall well being throughout the years I have lived there. I am hoping that my life's autobiography covered in this book will inspire communities and especially young people to be able to walk on the right path and achieve their dreams in life. Besides I hope it will enlighten my readers about the causes and effects of the on going human activities on the natural biophysical and human environments in Ethiopia, Sweden and other countries around the globe.
