shaped the airline industry in the past and will continue to do so in the future The growing importance of technology is discussed both from the perspective of better understanding customer needs and engaging more effectively with them The central role of the customer is explored through the lens of modern segmentation and branding approaches Coverage then shifts to the tactical decision areas consisting of the 4Ps product place promotion and price in which marketers shape and execute their strategies The book concludes with a focus on executing marketing initiatives internally through customer facing employee groups and externally through the measurement and management of the customer experience

Fundamentals of Airline Marketing is an accessible textbook on the fundamentals of marketing for commercial passenger air transportation chronicles the marketing innovations and controversies that have been central to the historic shift in airline fortunes demonstrates how airline decisions fit within the fundamentals of marketing and how the marketplace is continuing to evolve provides a bridge between key marketing principles and their specific application to the airline industry in each chapter This textbook is written primarily for undergraduate college students enrolled in aviation business administration programs and related courses It will also serve as an accessible primer on airline marketing for industry professionals not presently working in marketing and for frontline airline employees seeking to learn more about marketing

Indian Business Case Studies Volume VIII Srilatha Palekar, Arun Pardhi, Sunanda Jindal, 2022-06-13 It has been decades since many business schools outside India adopted the case study methodology for teaching almost all branches of management studies This trend has been seen in India too where top management institutes have implemented the case study based methodology as an important pedagogical tool in business education The major issue in India however is a severe shortage of Indian case studies through which business schools can provide industry insights to students This volume fills that gap It has twenty Indian cases related to different aspects of business management The cases cover some of the prominent disciplines of management like marketing finance human resource management strategy management operations management accounting and mergers and acquisitions These cases best serve the purpose of adoption of case methodology in classroom teaching or online lecture sessions for the faculty and students of business management

Communication, Management and Information Technology Marcelo Sampaio de Alencar, 2016-11-03 Communication Management and Information Technology contains the contributions presented at the International Conference on Communication Management and Information Technology ICCMIT 2016 Cosenza Italy 26 29 April 2016 organized by the Universal Society of Applied Research USAR The book aims at researchers scientists engineers and scholar students interested or involved in Computer Science and Systems Communication and Management

The Geographies of Air Transport Andrew R. Goetz, Lucy Budd, 2016-03-09 Making a detailed contribution to geographies of air transport and aeromobility this book examines the practices and processes that produce particular patterns of air transport provision both regionally and globally In so doing it updates the seminal contributions of Eva Taylor 1945 Kenneth Sealy 1957 Brian Graham 1995 and others to the study of air transport geography

Leading scholars in the field offer a unique insight into the key developments that have occurred in the field and the implications that these developments have had for geography geographers and global patterns of past present and future air transport Although globalization and liberalization processes have greatly expanded the demand for air transport over the last two decades the industry has experienced several major setbacks due to economic security and environmental concerns Many of these impacts have been much more pronounced in some regions such as North America and Europe while others such as Asia Pacific have not been as adversely affected Accordingly there is a clear need to examine these recent economic and geopolitical changes from a geographical perspective given the differentiated pattern of effects from global processes Addressing this need this volume opens with thematic chapters covering key topics such as the historical geographies socio cultural mobilities environmental externalities urban geographies and sustainability of the global air transport industry followed by regional analysis of the industry in Asia Pacific Latin America Greater Middle East and Africa as well as North America and Europe
