 children to read whole words or to sound out words letter by letter or both Should you have three reading groups or four or

Writing Difficulties Thomas G. Gunning,2002 This text provides numerous examples and thorough coverage of procedures
 for assessing and instructing struggling readers of all ages In keeping with current theory the text emphasizes prevention
 and early intervention It is based on the premise that student performance is variable and that assessment and instruction
 are planned and modified to meet the varied needs and levels of students Gunning does not subscribe to a medical model that
 emphasizes deficiencies but rather focuses on what students can do This text calls for inclusion not exclusion but recognizes
 that struggling learners need expert carefully planned assessment and instruction Assessment coverage includes a grounding
 in basic concepts of tests and measurement While formal standardized measures are described emphasis is placed upon
 informal but highly regarded techniques such as the informal reading inventory miscue analysis running records observation
 think alouds holistic scoring of writing and portfolio assessment In addition to chapters devoted specifically to assessment
 ways to connect assessment and instruction are mentioned throughout the text Coverage of instructional techniques is
