Jokes and Bawdy Songs Susan Davis, 2019-10-15 Collector of sexual folklore Cataloger of erotica Tireless social critic Gershon Legman's singular disreputable resume made him a counter cultural touchstone during his forty year exile in France Despite his obscurity today Legman's prescient work and passion for the prurient laid the groundwork for our contemporary study of the forbidden Susan G Davis follows the life and times of the figure driven to share what he found in civilization's secret libraries Self taught and fiercely unaffiliated Legman collected the risqué on street corners and in theaters and dug it out of little known archives If the sexual humor he uncovered often used laughter to disguise hostility and fear he still believed it indispensable to the human experience Davis reveals Legman in all his prickly provocative complexity as an outrageous nonconformist thundering at a wrong headed world while reveling in conflict violating laws and boundaries with equal abandon and pursuing love and improbable adventures Through it all he maintained a kaleidoscopic network of friends fellow intellectuals celebrity admirers and like minded obsessives [Humour in Asian Cultures](#) Jessica Milner

Davis, 2022-06-30 This innovative book traces the impact of tradition on modern humour across several Asian countries and their cultures Using examples from Japan Korea Indonesia and Chinese cultures in Mainland China Hong Kong and Taiwan the contributors explore the different cultural rules for creating and sharing humour Humour can be a powerful lubricant when correctly interpreted mis interpreted it is likely to cause considerable setbacks Over time it has emerged and submerged in different periods and different forms in all these countries but today's conventions still reflect traditional attitudes to and assumptions about what is appropriate in creating and using humour Under close examination Milner Davis and her colleagues show how forms and conventions that differ from those in the west can also be seen to possess elements in common With examples including Mencian and other classical texts Balinese traditional verbal humour Korean and Taiwanese workplace humour Japanese laughter ceremonies performances and cartoons as well as contemporary Chinese language films and videos they engage with a wide range of forms and traditions This fascinating collection of studies will be

of great interest to students and scholars of many Asian cultures and also to those with a broader interest in humour studies. It highlights the increasing importance of understanding a wider range of cultural values in the present era of globalized communication and the importance of reliable studies of why and how cultures that are geographically related differ in their traditional uses of and assumptions about humour.

Intentions in Comedy Discourse Ibukun Filani, 2025-01-27. *Intentions in Comedy Discourse* presents a systematic pragmatic analysis of stand up comedy. Drawing on previous literature on humour, socio-cognitive pragmatics, interactional sociolinguistics, storytelling and media discourse analysis, the author proposes a theoretical perspective on comedy discourse that interrogates the way stand up performers entextualise culture and society to instantiate situated actions with interactional textual or social functions. The book addresses how we can objectively move from stand up jokes to how humorous discourse does things in the real world, either in interacting with audiences or in creating heightened socio-political consciousness in them.

A Decade of Dark Humor Ted Gornelios, Viveca Greene, 2011-08-01. *A Decade of Dark Humor* analyzes ways in which popular and visual culture used humor in a variety of forms to confront the attacks of September 11, 2001, and more specifically the aftermath. This interdisciplinary volume brings together scholars from four countries to discuss the impact of humor and irony on both media discourse and tangible political reality. Furthermore, it demonstrates that laughter is simultaneously an avenue through which social issues are deferred or obfuscated, a way in which neoliberal or neoconservative rhetoric is challenged, and a means of forming alternative political ideologies. The volume's contributors cover a broad range of media productions, including news parodies, *The Daily Show* with Jon Stewart, *The Colbert Report*, *The Onion*, TV roundtable shows, *Politically Incorrect* with Bill Maher, comic strips and cartoons, Aaron McGruder's *The Boondocks*, Jeff Danziger's editorial cartoons, television drama, *Rescue Me*, animated satire, *South Park*, graphic novels, Art Spiegelman's *In the Shadow of No Towers*, documentary, *Fahrenheit 9/11*, and other productions. Along with examining the rhetorical methods and aesthetic techniques of these productions, the essays place each in specific political and journalistic contexts, showing how corporations, news outlets, and political institutions responded to and sometimes co-opted these forms of humor.

Handbook of Interpersonal Communication Gerd Antos, Eija Ventola, 2008-12-10. Interpersonal communication (IC) is a continuous game between the interacting interactants. It is a give and take, a continuous dynamic flow that is linguistically realized as discourse as an on-going sequence of interactants' moves. Interpersonal communication is produced and interpreted by acting linguistically, and this makes it a fascinating research area. The handbook *Interpersonal Communication* examines how interactants manage to exchange facts, ideas, views, opinions, beliefs, emotion, etc. by using the linguistic systems and the resources they offer. In interpersonal communication, the fine-tuning of individuals' use of the linguistic resources is continuously probed. The language used in interpersonal communication enhances social relations between interactants and keeps the interaction on the normal track. When interaction gets off the track, linguistic miscommunication may also destroy social relationships. This volume is essentially

concerned with this fine tuning in discourse and how it is achieved among various interactant groups The volume departs from the following fundamental questions How do interpersonal relations manifest themselves in language What is the role of language in developing and maintaining relationships in interpersonal communication What types of problems occur in interpersonal communication and what kind of strategies and means are used to solve them How does linguistically realized interpersonal communication interact with other semiotic modes Interpersonal communication is seen and researched from the perspective of what is being said or written and how it is realized in various generic forms The current research also gives attention to other semiotic modes which interact with the linguistic modes It is not just the social roles of interactants in groups the possible media available the non verbal behaviors the varying contextual frames for communication but primarily the actual linguistic manifestations that we need to focus upon when we want to have a full picture of what is going on in human interpersonal communication It is this linguistic perspective that the volume aims to present to all researchers interested in IC The volume offers an overview of the theories methods tools and resources of linguistically oriented approaches e g from the fields of linguistics social psychology sociology and semiotics for the purpose of integration and further development of the interests in IC Topics e g Orientation to interaction as primarily linguistically realized processes Expertise on theorizing and analyzing cultural and situational contexts where linguistic processes are realized Expertise on handling language corpora Expertise on theorizing and analyzing interaction types as genres Orientation to an integrated view of linguistic and non linguistic participant activities and of how interactants generate meanings and interact with space Expertise on researching the management of the linguistic flow in interaction and its successfulness

Femininity, Feminism and Gendered Discourse Janet Holmes, Meredith Marra, 2010-08-11 The chapters in this book illustrate a range of cutting edge research in language and gender studies with contributions from a number of internationally recognised experts The three themes femininity feminism and gendered discourse are central to research in language and gender and the book thus makes a valuable contribution to a number of current debates Femininity comprises a central aspect of gender performance and the process of gendering individuals is on going and unavoidable For many people the word femininity has associations with frilly pink party dresses with demureness deference and lack of power and influence The first section of this book demonstrates

some alternative conceptions of femininity and a range of ways in which femininity is performed in different contexts and cultures The analyses illustrate that we are all continually performing aspects of femininity and masculinity in flexible dynamic ambiguous predictable and unpredictable ways Language and gender research has a long tradition of engagement with the political and specifically with feminism and feminist goals The chapters in the second section of this book demonstrate the value of identifying gendered patterns in order to challenge their potentially repressive effects in social interaction in a range of spheres The researchers analyse contemporary international evidence of sexism in language use including material from Japanese spam emails expressing sexual desire and from media reporting on male and female candidates in the 2007 French elections The final section of this book focuses on the different ways in which we negotiate our gender through discourse Gender is just one of many facets of our intrinsically hybridized social identities Nevertheless it is a very significant facet a salient dimension in everyday life with a pervasive social influence on everything we do and say Interaction is typically viewed through gendered spectacles much of the time The chapters in the third section focus in detail on diverse ways in which gender is constructed through discourse examining the interaction between individual agency and the larger constraining social structures including socio cultural norms within which that agency is enacted Finally the different contributions in this book represent research from a multiplicity of geographic and cultural backgrounds supporting efforts to internationalise language and gender research and to raise awareness of empirical studies undertaken in a wide range of linguistic and cultural contexts

The Life of the City Julian Brigstocke, 2016-03-03 Could the vitality of embodied experience create a foundation for a new form of revolutionary authority The Life of the City is a bold and innovative reassessment of the early urban avant garde movements that sought to re imagine and reinvent the experiential life of the city Constructing a ground breaking theoretical analysis of the relationships between biological life urban culture and modern forms of biopolitical experiential authority Julian Brigstocke traces the failed attempts of Parisian radicals to turn the crisis of authority in late nineteenth century Paris into an opportunity to invent new forms of urban commons The most comprehensive account to date of the spatial politics of the literary artistic and anarchist groups that settled in the Montmartre area of Paris after the suppression of the 1871 Paris Commune The Life of the City analyses the reasons why laughter emerged as the unlikely tool through which Parisian bohemians attempted to forge a new non representational biopolitics of sensation Ranging from the carnivalesque performances of artistic cabarets such as the Chat Noir to the laughing violence of anarchist terrorism The Life of the City is a timely analysis of the birth of a carnivalesque politics that remains highly influential in contemporary urban movements

Eating Is an English Word Annemarie Mol, 2024-08-30 Eating is generally understood as a human need that people satisfy in diverse ways Eating however is also an English word Other languages using other words order reality differently they may fuse eating with breathing or distinguish chupar from comer Anthropologists flag such differences by leaving a few of their words untranslated but what language do we think in

This isn't necessarily English. We may be linguistically closer to those whose practices we study than against this background. Eating Is an English Word argues that social scientists should let go of the dream of universal concepts. Our analytical terms had better vary. Annemarie Mol and her coauthors exemplify this in a series of material semiotic inquiries into eating practices. They employ terms like lekker, tasting with fingers, chupar, schmecka, gustar, and settling on an okay meal to explore appreciative modes of valuing. Welcome then to spirited stories about satisfied stomachs, love for a lamb, juicy fruit treats, and companionable lunches and dinners.

Signifying the Local Jin Liu, 2013-09-27 In *Signifying the Local* Jin Liu examines contemporary cultural productions rendered in local languages and dialects, fangyan, in the fields of television, cinema, music, and literature in Mainland China. This ground-breaking interdisciplinary research provides an account of the ways in which local language media have become a platform for the articulation of multivocal, complex, and marginal identities in post-socialist China. Viewed from the uniquely revealing perspective of local languages, the mediascape of China is no longer reducible to a unified, homogeneous, and coherent national culture, and thus renders any monolithic account of the Chinese language, Chineseness, and China impossible.

On Our Own Strength Martina Thucnhi Nguyen, 2020-12-31 *On Our Own Strength* examines the political activities of the most influential intellectual movement in interwar French-occupied Vietnam. The far-reaching work of the Self-Reliant Literary Group (T L c V n o n) included applied design, urban reform, fashion, literature, journalism, and cartoons; its work was deeply political in both form and intent. The Group drew upon a wide range of global intellectual currents and practices to build an enlightened public that would one day serve as the basis of a modern Vietnamese nation. Its nationalist vision sought a nonviolent middle path between colonialism and anticolonial struggle, advocating a process of gradual decolonization that ultimately ended in Vietnamese autonomy. This form of cosmopolitan nationalism proved tremendously popular among ordinary Vietnamese and necessarily shaped local politics, influencing the political agenda of even rival groups such as the newly revived Indochinese Communist Party (ICP). *On Our Own Strength* shows how the Group's vision framed the ways the ICP positioned itself and sought popular support in the years leading up to the August Revolution and beyond. In later years, the party attempted to erase the Group's early influence on national politics, banning their writings and casting them as little more than bourgeois literary figures. In recovering the Group's unique response to the world around them, this book bridges the areas of political, cultural, and intellectual history, drawing them together into a rich narrative of Vietnamese nation building from the bottom up within a larger global context. *On Our Own Strength* offers a dynamic model for the field of Vietnamese studies as it continues to move beyond Cold War political narratives of its most tumultuous period. This book engages broadly with global history, European history, and imperial studies to explore colonialism's hybrid cultural and political forms. Martina Thucnhi Nguyen examines how the Self-Reliant Literary Group weighed in on everything from women's fashion and public housing to the major political ideologies of their era in a unique style that mixed French-inflected ideas with Vietnamese norms and forms. As a deep case study of important figures

on the Vietnamese moderate left *On Our Own Strength* provides an injection of color and nuance into a history that is often too monochromatic
