Grade 1geography Memo November 2014:

The Routledge Handbook on Crime and International Migration Sharon Pickering, Julie Ham, 2017-07-14 The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field

Taken For A Ride Matteo Rizzo, 2017-05-19 How does public transport work in an African city under neoliberalism Who owns what in it Who has the power to influence its shape and changes in it over time What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam These are the main questions that inform this in depth case study of Dar es Salaam s public transport system over more than forty years The growth of cities and informal economies are two central manifestations of globalization in the developing world Taken for a Ride addresses both drawing on long term fieldwork in Dar es Salaam Tanzania and charting its public transport system s journey from public to private provision This new addition to the Critical Frontiers of Theory Research and Practice in International Development Studies series investigates this shift alongside the increasing deregulation of the sector and the resulting chaotic modality of public transport It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights A longitudinal study of workers throws light on patterns of occupational mobility in the sector and the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it are analysed Taken for a Ride reveals the political economy of public transport exposing the limitations

of market fundamentalist and post colonial scholarship on economic informality the urban experience in developing countries and the failure to locate the agency of the urban poor within their economic and political structures It is both a contribution and a call for the contextualised study of actually existing neoliberalism **The Meritocracy Trap** Daniel

Markovits,2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people **The Geography of Injustice** Barak Kushner,2024-03-15 In *The*

Geography of Injustice Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan s empire At its conclusion one of the judges voiced dissent claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge War crimes tribunals Kushner shows allow for the history of the defeated to be heard In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate The Tokyo Trial courtroom as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two These narratives and counter narratives form the basis of postwar memory concerning Japan s imperial aims across the region The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption *The Geography of Injustice* offers compelling evidence that despite the passage of seven decades since the end of the war East Asia is more divided than united by history *America's Moment*

Rework America,2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today s economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America s Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America s Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone Federal Register,2013-03 Life in the Age of Drone Warfare Lisa Parks,Caren Kaplan,2017-10-19 This volume s contributors offer a new critical language through which to explore and assess the historical juridical geopolitical and cultural dimensions of drone technology and warfare They show how drones generate particular ways of visualizing the spaces and targets of war while acting as tools to exercise state power Essays include discussions of the legal justifications of extrajudicial killings and how US drone strikes in the Horn of Africa impact life on the ground as well as a personal narrative of a former drone operator The contributors also explore drone warfare in relation to sovereignty governance and social difference provide accounts of the relationships between drone technologies and modes of perception and mediation and theorize drones relation to biopolitics robotics automation and art Interdisciplinary and timely Life in the Age of Drone Warfare extends the critical study of drones while expanding the public discussion of one of our era s most ubiquitous instruments of war Contributors Peter Asaro Brandon Wayne Bryant Katherine Chandler Jordan Crandall Ricardo Dominguez Derek Gregory Inderpal Grewal Lisa Hajjar Caren Kaplan Andrea Miller Anjali Nath Jeremy Packer Lisa Parks Joshua Reeves Thomas Stubblefield Madiha Tahir Brutal Beauty Jisha Menon,2021-10-15 Brutal Beauty Aesthetics and Aspiration in Urban India follows a postcolonial city as it transforms into a bustling global metropolis after the liberalization of the Indian economy Taking the once idyllic garden city of Bangalore in southern India as its point of departure the book explores how artists across India

and beyond foreground neoliberalism as a structure of feeling permeating aesthetics selfhood and everyday life Jisha Menon conveys the affective life of the city through multiple aesthetic projects that express a range of urban feelings including aspiration panic and obsolescence As developers and policymakers remodel the city through tumultuous construction projects urban beautification privatization and other templated features of world class cities urban citizens are also changing transformed by nostalgia narcissism shame and the spaces where they dwell and work Sketching out scenes of urban aspiration and its dark underbelly Menon delineates the creative and destructive potential of India s lurch into contemporary capitalism uncovering the interconnectedness of local and global power structures as well as art s capacity to absorb and critique liberalization s discontents She argues that neoliberalism isn t just an economic social and political phenomenon neoliberalism is also a profoundly aesthetic project

Chasing Archipelagic Dreams David R. Saunders, 2024-12-15 In *Chasing Archipelagic Dreams* David R Saunders demonstrates that the withdrawal of the British imperial state from Sabah did not result in the decolonization of the territory From the late 1940s to the 1960s international anti colonialism interacted with regional competition over Sabah to result in a paradoxical increase of British power and influence on the ground Meanwhile ethnic social and political heterogeneity in Sabah contributed to fragmentation and disunity undermining the development of a local anti colonial movement Instead a class of influential local elites seized power as competing attempts by the Philippines Indonesia and Malaya to incorporate the territory into their respective archipelagic spheres grew in strength Due to these local and international rivalries Saunders argues Sabah s eventual merger with the Federation of Malaysia in 1963 prompted an extension of colonial style rule resource extraction the suppression of local autonomy and the imposition of an externally configured national identity *Chasing Archipelagic Dreams* underscores the significance of regional rivalries in the South China Sea and highlights the fate of subaltern communities bisected by post colonial borders

Putin's Labor Dilemma Stephen Crowley, 2021-07-15 In *Putin s Labor Dilemma* Stephen Crowley investigates how the fear of labor protest has inhibited substantial economic transformation in Russia Putin boasts he has the backing of workers in the country s industrial heartland but as economic growth slows in Russia reviving the economy will require restructuring the country s industrial landscape At the same time doing so threatens to generate protest and instability from a key regime constituency However continuing to prop up Russia s Soviet era workplaces writes Crowley could lead to declining wages and economic stagnation threatening protest and instability Crowley explores the dynamics of a Russian labor market that generally avoids mass unemployment the potentially explosive role of Russia s monotowns conflicts generated by massive downsizing in Russia s Detroit Tol yatti and the rapid politicization of the truck drivers movement Labor protests currently show little sign of threatening Putin s hold on power but the manner in which they are being conducted point to substantial chronic problems that will be difficult to resolve *Putin s Labor Dilemma* demonstrates that the Russian economy must either find new sources of economic growth or face stagnation Either scenario market reforms or economic stagnation raises the

possibility even probability of destabilizing social unrest
