**The Complete Book of Colleges, 2013 Edition** Princeton Review, 2012-08-07 Profiles every four year college in the United States providing detailed information on academic programs admissions requirements financial aid services housing athletics contact names and campus life *Handbook of Cannabis* Roger Pertwee, 2014-08-21 Truly global in scope and with contributions from leading researchers around the world The Handbook of Cannabis is the definitive resource on this fascinating drug Combining scientific perspectives and clinical applications it covers a vast array of topics from why over the centuries cannabis has been used as a medicine through the regulations facing those wishing to self administer cannabis or provide cannabis based medicines to the chemical structure of its many constituents and the rapidly growing group of synthetic cannabinoids that are currently being used for legal highs With each chapter written by a group of one or more internationally recognised subject experts it provides academics and researchers with authoritative scientific material on the main pharmacological actions and their effects as well as their pharmacokinetics metabolism and forensic detection In addition it also examines the complex morphology cultivation harvesting and processing of cannabis and the ways in which the plant s chemical composition can be controlled As well as offering a raft of scientific information there is extensive coverage of cannabinoid based medicines Helping readers to identify and evaluate their benefits chapters explore pharmacological actions and the effects that seem to underlie approved therapeutic uses how they are currently used to treat certain disorders and the ever growing number of wide ranging potential clinical applications There is also coverage of both the legal and illegal sources of cannabis including coffee shops and cannabis dispensaries The complex issue of recreational cannabis is also tackled The sought after and adverse psychological and non psychological effects are described and discussions are included on how some adverse effects can be lessened by at least one constituent of cannabis and that it might be possible to reduce the harm that cannabis does to some by changing current regulatory policies The Handbook of Cannabis is a one stop reference essential reading for all clinicians pharmacologists psychologists and psychiatrists interested in this drug as well as those working in the field of public health **The Secret Horsepower Race** Calum E. Douglas, 2020-12-02 The piston engines that powered Second World War fighters the men who designed them and the secret intelligence work carried out by both Britain and Germany would determine the outcome of the first global air war Advanced jet engines may have been in development but every militarily significant air battle was fought by piston engined fighters Whoever designed the most powerful piston engines would win air superiority and with it the ability to dictate the course of the war as a whole This is the never before told story of a high tech race hidden behind the closed doors of design offices and intelligence agencies to create the war s best fighter engine Using the fruits of extensive research in archives around the world together with the previously unpublished memoirs of fighter engine designers author Calum E Douglas tells the story of a desperate contest between the world s best engineers the Secret Horsepower Race **Designing the American**

**Century** Thomas J. Campanella, 2025-06-10 A richly illustrated look at the lives and collaborations of two unsung giants of American landscape and urban design Gilmore D Clarke and Michael Rapuano were the foremost spatial designers of the American century Their vast portfolio of public landscapes propelled the legacy of Frederick Law Olmsted and Calvert Vaux into the motor age touching the lives of millions and changing the face of the nation Designing the American Century recovers the forgotten legacy of Clarke and Rapuano whose parks and parkways highways and housing estates helped modernize for better or worse the American metropolis With the patronage of public works titan Robert Moses Clarke and Rapuano transformed New York over a span of fifty years revitalizing the city's immense park system but also planning expressways public housing and urban renewal projects that laid waste to entire sections of the city In this groundbreaking work Thomas J Campanella describes how Clarke and Rapuano helped create some of the metropolitan region's most iconic landscapes from the Central Park Zoo and Conservatory Garden to the Henry Hudson Parkway and Riverside Park Jones Beach the Palisades and Taconic State Parkways and the Brooklyn Heights Promenade He shows how they left their mark far beyond Gotham as well with projects as diverse as Yellowstone's Mammoth Hot Springs the Mount Vernon Memorial Highway site plans for the Pentagon and CIA headquarters and Montreal's Olympic Park Richly illustrated with a wealth of previously unpublished drawings plans and photographs Designing the American Century fills one of the last major gaps in the history of American urbanism

**Debating Modern Medical Technologies** Karen J. Maschke, Michael K.

Gusmano, 2018-09-14 This book analyzes policy fights about what counts as good evidence of safety and effectiveness when it comes to new health care technologies in the United States and what political decisions mean for patients and doctors Medical technologies often promise to extend and improve quality of life but come with many questions Are they safe and effective Are they worth the cost When should they be allowed on the market and when should Medicare Medicaid and private insurance companies be required to pay for drugs devices and diagnostic tests Using case studies of disputes about the value of mammography screening genetic testing for disease risk brain imaging technologies to detect biomarkers associated with Alzheimer's disease cell based therapies and new expensive drugs Maschke and Gusmano illustrate how scientific disagreements about what counts as good evidence of safety and effectiveness are often swept up in partisan fights over health care reform and battles among insurance and health care companies physicians and patient advocates Debating Modern Medical Technologies The Politics of Safety Effectiveness and Patient Access reveals stakeholders differing values and interests regarding patient choice physician autonomy risk assessment government intervention in medicine and technology assessment and scientific innovation as a driver of national and global economies It will help readers to understand the nature and complexity of past and current policy disagreements and their effects on patients

Children of the Northern Forest Jamie Sayen, 2023-10-31 This no holds barred narrative of the failure of conservation in northern New England's forests envisions a wilder more equitable lower carbon future for forest dependent communities Jamie Sayen

approaches the story of northern New England's undeveloped forests from the viewpoints of the previously unheard the forest and the nonhuman species it sustains the First Peoples and in more recent times the disenfranchised human voices of the forest including those of loggers mill workers and citizens who like Henry David Thoreau wish to speak a kind word for nature From 1988 to 2016 paper companies sold their timberlands and closed seventeen paper mills in northern New England Policy makers ceded veto power to large absentee landowners who tried to preserve the status quo by demanding additional tax cuts and other subsidies for economic elites They vetoed measures designed to restore and preserve forest health at present about half of the former industrial forests are classified as degraded and the regional economy continues to be trapped in low value commodity markets This book operates as a case study of how a rural resource region can respond to a global economy responsible for climate change habitat loss and degradation and environmental injustice Sayen offers a blueprint for restoring vast wildlands and transitioning to a lower carbon high value adding local economy while protecting the natural rights of humans nonhumans and unborn generations
