International Congress of the International Association for the History of Religions** International Association for the History of Religions, 1908 The Corruption of Angels Mark Gregory Pegg, 2009-01-10 On two hundred and one days between May 1 1245 and August 1 1246 more than five thousand people from the Lauragais were questioned in Toulouse about the heresy of the good men and the good women more commonly known as Catharism Nobles and diviners butchers and monks concubines and physicians blacksmiths and pregnant girls in short all men over fourteen and women over twelve were summoned by Dominican inquisitors Bernart de Caux and Jean de Saint Pierre In the cloister of the Saint Sernin abbey before scribes and witnesses they confessed whether they or anyone else had ever seen heard helped or sought salvation through the heretics This inquisition into heretical depravity was the single largest investigation in the shortest time in the entire European Middle Ages Mark Gregory Pegg examines the sole surviving manuscript of this great inquisition with unprecedented care often in unexpected ways to build a richly textured understanding of social life in southern France in the early thirteenth century He explores what the interrogations reveal about the individual and communal lives of those interrogated and how the interrogations themselves shaped villagers perceptions of those lives The Corruption of Angels similar in breadth and scope to Emmanuel Le Roy Ladurie s Montaillou is a major contribution to the field It shows how heretical and orthodox beliefs flourished side by side and more broadly what life was like in one particular time and place Pegg s passionate and beautifully written evocation of a medieval world will fascinate a diverse readership within and beyond the academy

Society 5.0 Bruno Salgues, 2018-08-21 Following the rapid development of connected technologies which are now highly sophisticated and spread across the globe Society 5 0 has emerged and brought with it a dramatic societal shift In 1998 Kodak the world leader in photographic film had 170 000 employees It thus seemed unthinkable that just 3 years later the

majority of people would stop taking photographs to paper film and that Kodak would have disappeared These are the stakes of this new society that is taking shape This book which does not seek to critique current politics management or marketing literature aims to fight against the excesses of this often misunderstood Society 5 0 and to present the ideas and associated technologies that comprise it all working towards societal improvement Among these technologies artificial intelligence robotics digital platforms and 3D printing are undoubtedly the most important and thus receive the greatest focus
