*Southern History Remixed* Michael T. Bertrand,2024-01-30 How popular music reveals deep histories of racial tensions in southern culture *Southern History Remixed* spotlights the key role of popular music in the shaping of the United States South from the late nineteenth century to the era of rock n roll in the 1940s 50s and 60s While musical activities are often sidelined in historical narratives of the region Michael Bertrand shows that they can reveal much about social history and culture change as he connects the rise of rock n roll to the civil rights movement for racial equality In this book Bertrand traces a long term culture war in which white southerners struggled over the region s cultural complexion with music serving as an engine that both sustained and challenged white supremacy He shows how rock n roll emerged as a working class genre with biracial sources that stoked white racial anxieties and engaged the region s color and culture lines This book discusses the conflict over southern identity that played out in responses to jazz barn dance radio Pentecostal and gospel music Black radio programming and rhythm and blues concluding with a close look at the popularity of Elvis Presley within a racially segregated society *Southern History Remixed* suggests that both Black and white southerners have used music as a tool to resist or negotiate a rigid regional hierarchy Urging readers and scholars to take the study of popular music seriously Bertrand argues that what occurs in the music world affects and reflects what happens in politics and history A volume in the series *Southern Dissent* edited by Stanley Harrold and Randall M Miller

*The Forest and the Field* Chris Goode,2015-12-09 *The Forest and the Field* is a polemical thinking through of the whole concept of theatre as a space and a politically motivated exploration of how and where that theatrical space meets the real world that surrounds and suffuses it The book begins by demolishing the notion of the empty space and drawing careful and suggestive distinctions between space and place It moves on to consider how the body of the actor or of the spectator is read within the theatrical encounter and how meaning is created in the turbulent movement of signs between performer and audience Finally it interrogates the

wider relationship between theatre and its outside culminating in an attempt to answer the familiar question of whether theatre can change the world and if it can how it might
