*18 Principles to Help You Evolve* Charles Mendlowicz, 2025-05-06

Madness That's how I define it when we have our purpose right in front of us and we don't do what we came to do in this world. People want to start at the end but you have to start at the beginning. So there's no point talking about making money changing your car or buying a property if you're not doing the basics or rather if you don't even understand the basics yet. There is no shortcut you have to live the process. To get anywhere you have to live the process, walk a path, and everything that Charles Mendlowicz, creator of the Economista Sincero channel, tells us in this book in a humorous and unabashed way is nothing more than his process, the route he took, and what he considers important to get where he is. It's not a smooth road; there will be rain, wind, storms, and sometimes too much sun, but the good thing is that you'll finally have a step-by-step guide to follow. In Jewish culture, the number 18 has a special meaning linked to everything that is alive in movement and in a constant process of evolution. Based on this realization that everything is connected to this divine spark that is our own life, Charles decided to share with everyone what he has experienced, the experiences and lessons that have worked for him, and that need to be known by others. After all, there's no point in having knowledge if it can't somehow be shared and help someone.

To date, the two have used their own tools and methods to deal with similar issues when it comes to the requirements design, testing, maintenance, and evolution of these architectures.
