The wounded childhood Sebastián León, 2024-10-01 1 We all carry the burden of childhood emotional wounds 2 Some of these wounds are circumstantial and minor whereas others are deep and chronic such as those that respond to experience of childhood mistreatment physical violence psychological violence sexual abuse parental negligence abandonment 3 These childhood emotional wounds by being open and not sufficiently healed tend to affect obstacle or interrupt adult life 4 Psychotherapy with adults can very well be understood from its roots as the joint process of healing the childhood emotional wounds 5 Speaking of the wounded childhood is acknowledging childhood as the most important period in the emotional construction of an individual 6 This does not imply ceasing to consider the emotional wounds whose origin comes from adolescence or adulthood 7 Childhood emotional wounds tend to occur in the context of early relationships with parents or caregivers as well as with siblings or other figures of the nuclear family It is also necessary to add the school environment 8 The wounded childhood refers especially to the complex relational trauma i.e. the intolerable and chronic suffering or pain that happens every day during development and frequently in the context of significant and close interpersonal relationships 9 If the wounded childhood is a mistreated childhood then its opposite is a well treated childhood 10 An upbringing based on good treatment and on an education for non violence are fundamental pillars of mental health *Taking Control of OCD*

vulnerable to exploitation Drug companies have fostered the development of this system pushing psychiatry to over extend its domain so that more people can be diagnosed with mental disorders and treated with drugs This book describes the steady expansion of the DSM both the manual itself and its application and the resulting over medication of society The author discusses revisions and additions to the DSM now in its fifth edition that have only deepened the epidemics of major depression premenstrual dysphoric disorder social anxiety disorder attention deficit disorder and bipolar disorder Savor the Flavor & Get Twice the Luv Jamala M. Johnson,2015-01-23 Pink Passion A ruling passion motivates pushes stretches encourages inspires and in some instances a ruling passion might even challenge you to reach your full potential Make no mistake about it a ruling passion is much different from a goal In general a goal is a set deadline or time frame establish by the goal setter to complete and accomplish a particular task Normally goal setters classify goals into categories short term and long term For a tantamount of consumers and shoppers once a goal is set it stays at the center of attention until the goal is accomplished Totally different from a goal__putatively a passion so to speak is something that you love to do more than anything else that you do daily Straight forwardly speaking when you have a passion it consumes your every thought it pretty much paints the picture of how you view see and live life A strong feeling longing or desire each of us as consumers and shoppers have different passions__ostensibly even with the various passions available as choices some consumers and shoppers have not found their ruling passion understandably it could take years before a consumer or shopper stumbles upon their ruling passion At any rate that you find your passion a passion or a ruling passion could be just about anything that you love and enjoy to do at home away from the job on vacation and during holidays From shopping to blogging to cooking to singing to acting to dancing it s what you love to do the most it s what motivates pushes stretches encourages inspires and challenges you it s your ruling passion In previous years I have had a passion to try and do many things While in college I rediscovered my passion for the English language and writing Within the past seven years I developed a passion for shopping and blogging 2009 I developed a passion for pink Along with my passion for pink I believe my ruling passion is to be an award winning editor and writer Veritably all passions begin with you_ if you have found your ruling passion stick with it share it and create a niche for your passion And for the percentage of you consumers and shoppers who you havent found your ruling passion start _right now and start doing what you love and enjoy it s not too late Geriatrics Kevin M. Jackie Krasas traces the trajectories of mothers who have lost or ceded custody to an ex partner She argues that these noncustodial mothers experiences should be understood within a greater web of gendered social institutions such as employment education health care and legal systems that shapes the meanings of contemporary motherhood in the United States If motherhood means being there then noncustodial mothers through their absence are seen as nonmothers They are anti mothers to be reviled At the very least these mothers serve as cautionary tales Still a Mother questions the existence of an objective method for determining custody of children and challenges the best interests standard through a feminist reproductive justice lens The stories of noncustodial mothers that Krasas relates shed light on marriage and divorce caregiving gender violence and family court Unfortunately much of the contemporary discussion of child custody determination is dominated either by gender neutral discussions or at the opposite end of the spectrum by the idea that fathers are severely disadvantaged in custody disputes As a result the idea that mothers always receive custody has taken on the status of common sense If this was true as Krasas affirms there would be no book to write **Voices of Experience**
