

INTANGIBLE ASSET

An intangible asset is an identifiable non-monetary asset without physical substance.

Monetary assets are money held and assets to be received in fixed or determinable amounts of money.

Amortisation is the systematic allocation of the depreciable amount of an intangible asset over its useful life.

An asset is a resource:

- controlled by an entity as a result of past events; and*
- from which future economic benefits are expected to flow to the entity.*

Accounting for Goodwill and Other Intangible Assets Ervin L. Black, Mark L. Zyla, 2018-10-09 Concepts, methods and issues in calculating the fair value of intangibles. Accounting for Goodwill and Other Intangible Assets is a guide to one of the most challenging aspects of business valuation. Not only must executives and valuation professionals understand the complicated set of rules and practices that pertain to intangibles, they must also be able to recognize when to apply them. Inside, readers will find these many complexities clarified. Additionally, this book assists professionals in overcoming the difficulties of intangible asset accounting, such as the lack of market quotes and the conflicts among various valuation methodologies. Even the rarest and most problematic situations are treated in detail in Accounting for Goodwill and Other Intangible Assets. For example, the authors analyze principles for identifying finite intangible assets and appropriately accounting for amortization expenses or impairment losses. Using the information in this book, the results of these calculations can also be reported with precision on financial statements. These topics are especially important for ensuring the success of any asset acquisition or business combination. In these special cases, the utmost accuracy is essential. This book provides Rules for identifying and recognizing intangible assets in business combinations and asset acquisitions. Guidance on the accurate valuation and carrying amount calculation of acquired and self-created intangibles. Tips for overcoming the challenges unique to intangible assets, including impairment testing. Clear instructions for disclosing intangible assets, goodwill, and amortization expenses. Accounting for Goodwill and Other Intangible Assets is an indispensable reference for valuation students and specialists. Ervin L. Black and Mark L. Zyla provide thorough instructions for understanding accounting for and reporting this challenging asset class. **Intangible assets (IAS 38) & impairment of assets (IAS 36)**

This paper aims to give an overview of the opinions of different authors in various countries on intangible assets. Intangible assets are having a growing importance in the financial and economical world. **Intangible Assets in Business Valuation, with Emphasis on Real Options Approach** Selcuk Kocak, 2008-08. Master's Thesis from the year 2005 in the subject Business economics. Banking, Stock Exchanges, Insurance. Accounting grade B. University of Applied Sciences Berlin. 26 entries in the bibliography. Language: English. Abstract: The change in the economy in the 20th century is more towards an economy based on ideas away from the matter-based economy of earlier times. The emphasis has shifted from natural resources to thought, ideas, design, and organization. 11 Services replaced the importance of manufacturing. Contractor 2001 names this overall change as a dematerialization of the economy and quantifies the significance of the change by pointing out that by the end of the twentieth century, 79 percent of jobs and 76 percent of the GNP in the United States were in the service sector. This change wasn't visible only in the US. European and Emerging nations did also portray similar trends. In

1969 Tobin introduced a new ratio called Tobin's q Ratio¹² which have been a great influence on the valuation measure of intangible components of enterprises Having a look at the example of Microsoft's ratio between its market value and its book value which in 1999 25 to 1 reveals the fact that most of the value is in the form of knowledge capital in its employees organization patents copyrights brand value etc This ratio is bound to increase as the importance of intangible assets rises over the course of years Though this increase is certain and expected the valuation of these assets is still not clarified nor agreed upon The value of the intangible assets is of importance to different audiences such as academicians scholars accountants consultants etc and they haven't been able to come up with one single approach to solving the problem This thesis will focus on a particular subset of intangible assets namely patents and demonstrate how to value them

Accounting Standards for Intangibles Reporting Pankaj M. Madhani, 2014 Intangible assets are a major tool for organizations to build competitive advantages as the value attached to intangible assets has increased manifold in the current era of knowledge or information economy As firms now become more knowledge and information based intangible

assets will comprise a significant percentage of the overall value of businesses Firm s future growth potential will be decided by intangible assets Although all intangible assets are very valuable and critical to organizations its measurement and accounting practices are complex and involves many accounting issues According to current accounting practices all of the intangible assets can t be recognized as assets in the balance sheet of a firm This article discusses many issues and accounting practices of IAS 38 for intangible assets

Accounting for brands in IAS 38 of IASC (intangible assets) compared with french and german practices Hervé Stolowy,Axel Haller,Volker Klockhaus,1999 Il est souvent not que le processus de normalisation comptable internationale est influencé par l'approche anglo-américaine ce qui explique en partie la réticence de certains pays adopter les normes comptables internationales La différence entre les philosophies anglo-américaines et européennes continentales peut s'expliquer par l'importance accordée de deux caractéristiques essentielles de la comptabilité : fiabilité et pertinence Le domaine des actifs incorporels et notamment des marques fait particulièrement ressortir l'opposition existant entre ces deux concepts Il est alors intéressant de voir si le traitement proposé par l'IASC est différent des pratiques des pays d'Europe continentale et s'il pourrait être adopté facilement par les entreprises de ces pays Tel est le principal objectif de cet article qui compare les positions retenues dans la norme IAS 38 en matière de marques avec celles de la France et de l'Allemagne Malgré l'existence de nombreux points de convergence cette recherche fait ressortir plusieurs différences majeures entre deux pays supposés suivre des règles relativement similaires Ceci tend donc attirer notre attention sur la difficulté de l'harmonisation internationale

The Relationship Between the Capitalization of Intangible Assets and Financial Analysts' Earnings Forecast Errors Yu-Chen Lin,2016 This study examines whether the information on capitalization of intangible assets improves the precision of analysts forecasts after the adoption of IFRS 3 and IAS 38 for Asian firms In addition we investigate whether the forecast relevance of intangible assets information guided by IFRS 3 and IAS 38 depends on the level of a firm s total potential intangible assets origins of law the level of law enforcement and the level of earnings management Our empirical results show that on average the adoption of IFRS 3 and IAS 38 does not significantly influence the relationship between the capitalization of intangibles and analysts earnings forecast errors However a further analysis indicates that the capitalization of intangibles following the rules of IFRS 3 and IAS 38 significantly improves analysts earnings forecast accuracy for firms with higher level of underlying intangible assets firms domiciled in common law countries and firms that are less suspected of earnings management Taken together these results imply that firm characteristics and country level institutional factors are important determinants of the benefits from adopting IFRS 3 and IAS 38

Should International Accounting Standards Prescribe the Capitalization of Intangible Assets? Thibault Reichelt,2009 Balance sheet figures must be reliable and need not necessarily be value relevant In order to protect the company s creditors and to safeguard the investing public against the possibility of earnings management intangible assets should only be recognized when the most stringent of standards are satisfied According to this line of reasoning the

efforts to make the capitalization of intangibles mandatory appear rather misguided
