Understanding and Evaluating Research Sue L. T. McGregor, 2017-10-25 Understanding and Evaluating Research A Critical Guide shows students how to be critical consumers of research and to appreciate the power of methodology as it shapes the research question the use of theory in the study the methods used and how the outcomes are reported The book starts with what it means to be a critical and uncritical reader of research followed by a detailed chapter on methodology and then proceeds to a discussion of each component of a research article as it is informed by the methodology The book encourages readers to select an article from their discipline learning along the way how to assess each component of the article and come to a judgment of its rigor or quality as a scholarly report

Institutional Challenges to Intermodal Transport and Logistics Jason Monios, 2016-05-23 While the operational realities of intermodal transport are relatively well known the institutional challenges are less well understood This book provides an overview of intermodal transport and logistics including the policy background emerging industry trends and academic approaches Establishing the three key features of intermodal transport geography as intermodal terminals inland logistics and hinterland corridors Jason Monios takes an institutional approach to understanding the difficulties of successful intermodal transport and logistics Key areas of investigation include the policy and planning background the roles of public and private stakeholders and the identification of emerging strategy conflicts Substantial empirical content situates the theoretical and practical issues in real world examples via three detailed case study chapters covering the USA UK and

Europe making the book useful to students as well as practitioners desiring an understanding of how intermodal transport and logistics work in practice The identified challenges to intermodal transport and logistics are used to demonstrate how competing port and inland strategies can inhibit the necessary processes of integration required to underpin successful intermodal transport The book concludes with a look at the future of institutional adaptation that may enhance the capacity of freight actors to engage with intermodal transport developments Introducing the IB Diploma Programme Marc Abrioux,Jill Rutherford,2013-02-14 Schools wishing to introduce the IB diploma programme are faced with major investment in terms of time effort and money in order to become authorised This manual is a resource for schools already offering the diploma as well as for prospective diploma schools *Romance Languages and Linguistic Theory 2010* Irene Franco,Sara Lusini,Andrés Saab,2012-12-12 The annual Going Romance conference has developed into the major European discussion forum for theoretically relevant research on Romance languages where current ideas about language in general and about Romance languages in particular are tested The twenty fourth Going Romance conference was organized by the Leiden University Centre of Linguistics LUCL and took place in Leiden on 9 11 December 2010 The present volume contains a selective collection of peer reviewed articles 10 out of approximately 30 contributions dealing with poignant issues in syntax phonology morphology and semantics of the Romance languages The innovative character of the proposals as well as the discussions of various interface issues offered by the papers contained in this volume are interesting for both Romance scholars and other linguists Among the contributions are the papers presented by the invited speaker M Rita Manzini and of prominent linguists such as Jo o Costa Viviane Deprez and David Embick **Contemporary Politics, Communication, and the Impact on Democracy** Palau-Sampio, Dolors,López García, Guillermo,Iannelli, Laura,2021-11-12 The loss of credibility of traditional media and democratic institutions points to the important challenges for the democratic system Social networks have allowed new political and social actors to disseminate their messages which has raised diversity However it has also lowered the standards for the circulation of messages and has increased disinformation and hate speech Contemporary Politics Communication and the Impact on Democracy addresses communication and politics and the impact on democracy This book offers a valuable contribution regarding the challenges and threats faced by traditional and stable democracies while disinformation polarization and populism have a main role in the present hybrid communicative scenario Covering topics such as digital authoritarianism emotional and rational frames and political conflict on social media this is an essential resource for political scientists communication specialists analysts policymakers politicians critical media scholars graduate students professors researchers and academicians *Incidental catch of vulnerable species in Mediterranean and Black Sea fisheries - A review* Carpentieri, P., Nastasi, A., Sessa, M., Srour, A. (eds.),2021-06-28 Bycatch a term widely used to refer to part of the catch unintentionally caught during a fishing operation in addition to target species and consisting of the discards and incidental catch of vulnerable species is considered one of the most important threats to the profitability

and sustainability of fisheries as well as to the conservation of the marine environment and ecosystems Understanding the bycatch issue and adopting effective measures in order to reduce bycatch rates are essential steps towards minimizing the impacts on vulnerable species and ensuring both a sustainable fisheries sector and healthy seas In the Mediterranean and the Black Sea the incidental catch of vulnerable species namely seabirds sea turtles elasmobranchs marine mammals and macrobenthic invertebrates represents one of several challenges for the industrial semi industrial and small scale fisheries that coexist in the region as well as for the diverse and sensitive ecosystems impacted Typically data on this issue have been collected in an opportunistic manner and in ways that make comparisons difficult The annual absolute values of incidental catch of vulnerable species are not available studies cover only a small portion of the total fishing activity and often present important knowledge gaps for many types of fishing gear countries and or subregions as well as on temporal scales for example to establish reliable baselines The result is that little is known of the scope of the problem despite incidental catch being a significant pressure on the populations of vulnerable species as well as a concern for fishers This regional review is an attempt to compile in one single document all available data and historical records on the incidental catch of vulnerable species in the Mediterranean and Black Sea fisheries obtained from existing literature databases and other grey sources and collated in a standardized and comparable way The main objective is to provide comprehensive baseline information earmark the main data gaps as well as identify the most impacting types of fishing gear by taxonomic group This work is a reminder of the importance of standardized data collection and the need to have baseline information in order to support decision making in the identification of appropriate bycatch mitigation techniques thus enabling analysis of their effectiveness and comparison over time and space as well as facilitating the implementation of relevant conservation and or management measures at the national subregional and regional levels

Sustainable Urbanization in India Jenia Mukherjee, 2017-10-06 This comprehensive volume contributes to the existing and emerging body of literature on contemporary urbanization and the interactions between cities and the environment The volume is contextualized against latest theories debates and discussions on sustainable urbanization the post 2015 development agenda of the United Nations and India s official launching of the smart city agenda Reflecting on three major components of urban sustainability investments and infrastructures waste management and urban ecologies and environmentalisms it moves beyond the bi

centric approach of only looking into the differences between the developed and the developing world and reflects on cities across India using polycentric methods and approaches The Indian urban scenario is extremely complex and diverse and solutions laid out in official and non official documents tend to miss these complexities This volume includes innovative research across different parts of India identifying city specific sources of unsustainability and challenges along with strategies and potentials that would make the process of urban transition both sustainable and equitable Complex explorations of non linear bottom up multisectoral process based local urban contexts across north south east and west Indian cities in this volume critique a general acceptance of the universalized concept of sustainable urbanization and suggest ways that might be important for transcending inclusive theories to form practical policy based recommendations and actions
