s founding charter Between 1981 and 2015 these Arab Gulf monarchies experienced major socio political transformations resulting from upheavals throughout the Arab and Muslim worlds The perceived necessity to bring about a full fledged union has come into conflict with entrenched viewpoints from regimes that value traditional military political roles and norms In this new study Joseph A Kechichian provides an evaluation of GCC States military institutions to better evaluate whether a stable alliance is capable of enduring over the next few decades and how civilian leaders perceive the role and influence of their military officers for the task Kechichian raises fundamental questions over internal regional and international threats including an existential challenge emanating from the Islamic revolutionary government of Iran and assesses how GCC professionals may be preparing to tackle them He further elucidates on the best methods to meet security challenges not only to secure political survival but also to determine whether conservative Arab Gulf regimes can flourish outside an effective alliance The volume concludes with an examination of evolving civil military relations in the GCC States
