Midwifery

Skills at a Glance Patricia Lindsay, Carmel Bagness, Ian Peate, 2018-06-18 Being an effective midwife requires a range of knowledge and skills all of which are essential to provide competent and safe care to childbearing women and their infants. Midwifery Skills at a Glance offers an invaluable straightforward guide for students and practitioners offering readable easily digestible information supported with illustrations throughout to enhance application to practice. Clear and concise throughout, Midwifery Skills at a Glance covers a wide range of skills exploring issues such as infection control, personal hygiene, care and safeguarding, assessment, examination and screening skills, how to care for the woman and neonate with complex needs, drug administration and pain relief. A comprehensive highly visual guide to the skills essential for safe, effective and compassionate midwifery practice. Written by experts in their field, it briefly describes each skill and provides clear illustrations making it an ideal companion in clinical practice. Offers instruction on the safe use of a wide range of essential skills required to deliver safe, evidence-based maternity care. Includes service user viewpoints and key points to help consolidate learning and reflect on the experience of receiving care. Written with the student midwife in mind. Midwifery Skills at a Glance is equally invaluable for all others providing care including Maternity Support Workers, mentors, registered midwives and medical students.

Islamic Capital Markets and Products Simon Archer, Rifaat Ahmed Abdel Karim, 2017-10-16 Ensure Basel III compliance with expert analysis specific to Islamic Finance. Islamic Capital Markets and Products provides a thorough examination of Islamic capital markets (ICM) with particular attention to the products that they offer and the legal and regulatory infrastructure within which they operate. Since Islamic banks act as asset managers, attention is paid to the regulatory challenges which they face in the light of Basel III as regards both eligible capital and liquidity risk management. The authors of the chapters are professionals and practitioners and write from experience. The editors also contributed to some of the chapters. The markets and products covered include Islamic equities, Islamic investment certificates (Sukuk) which are Shari'ah compliant alternatives to conventional bonds, and Islamic Collective Investment Schemes. The coverage of legal and regulatory issues includes an examination of the implications for ICM of securities laws and regulations and of Basel III as well as collateralisation issues. Shari'ah compliance aspects in terms both of the selection criteria for Islamic equities and of the purification of impermissible components of income are also examined in some detail, as are the implications of Basel III for eligible capital in general and for Shari'ah compliant capital instruments in particular. A similar analysis is also made of the implications of the Basel III requirements for liquidity risk management and high quality liquid assets (HQLA) including Shari'ah compliant HQLA. The book concludes with three case studies, two describing the ICM in Malaysia and Bahrain and a third which describes Sukuk issued as Shari'ah compliant capital instruments, followed by brief concluding remarks by the editors.

landscape **Midwifery in China** Ngai Fen Cheung, Rosemary Mander, 2018-06-27 The first book to present the history ideas life and works of Chinese midwives and birth attendants this volume seeks to encapsulate and explain the changing ideas about the practice of midwifery in China Using participant observations and interviews it examines each phase of the development of midwifery in depth Providing a systematic study of the existing literature and contemporary national health policies it analyses the factors contributing to the current demise of midwifery in China such as the absence of national regulation high standards of education and national midwives associations Furthermore it argues that China s national statistics in the past six decades demonstrate clear evidence that minimising maternal mortality rates will only happen through wider availability of services rather than through obstetric technology or facility based care Ultimately therefore this book supports the view that humanity and midwifery will survive to overcome domination by both technology and market forces and that economic growth and medical technology alone will not be sufficient in providing effective healthcare This book is an indispensable resource for the study of Chinese midwifery both in theory and in practice As such it will be useful to students and scholars of Midwifery Women s Health Sociology and culture and society in China **The Integrated Case Management Manual** Roger G.
