**The Stark Carpathians** Anthony J. Amato, 2024-01-29 The Stark Carpathians Ritual Text and Authority Among Ukraine's Hutsuls addresses rituals and texts in a small mountainous area located in today's Ukraine The residents of this remote region are known as the Hutsuls This book argues that Hutsul rituals and texts cast as ancient and extraordinary had more mundane roots They formed out of contact between the region's residents and lowland institutions and they became foundations for everyday life Words and symbolic action had an inherent tension that stemmed from contests over authority The nature of these contests was such that distant officials willful locals and diverse sources of information were often as important as collective traditions in shaping rituals and texts Prolific producers of texts Hutsuls carried on discussions that included diverse topics such as agriculture astrology mass gymnastics divine punishment and witches and vampires This volume covers these and other discussions in their small and exact particulars and it investigates texts and rituals in their fullness and irreducible complexity By crossing traditional lines of inquiry and following the region's winding trails to their divergent ends this book offers insight into a larger Hutsul world Ultimately the study of Hutsul creations informs the study of rituals and texts in many elsewheres far from the Carpathian Mountains **Stigma** Gerhard Falk, 2010-04-06 What is it in human nature that leads us to label some as insiders and stigmatize others as outsiders Sociologist Gerhard Falk examines the social psychology that motivates this process of exclusion focusing on the outcasts in contemporary American society and comparing current experience with examples from the past Referring to the work of Emile Durkheim and Erving Goffman

Falk reviews the whole range of stigmatized people from the mentally ill to ordinary people with unpopular occupations like undertakers and trash collectors. Amid the wide diversity of stigmatized persons he finds two basic types of outsiders: the existential and the achieved. The first group comprises those who are stigmatized because of their very existence regardless of their specific actions; the mentally handicapped, for example. The second group describes those whose actions or life conditions have resulted in stigma from high achievers often subject to resentment to criminals. Falk also looks at the ways in which writers past and present have dramatized stigmatized characters in literature. This fascinating overview of a long standing and widespread social problem will be of interest to all those concerned about creating a more fair minded society.
