Interesting Times A Twentieth Century Life:

Interesting Times Eric Hobsbawm, 2007-12-18 Eric Hobsbawm is considered by many to be our greatest living historian Robert Heilbroner writing about Hobsbawm's *The Age of Extremes* 1914-1991 said I know of no other account that sheds as much light on what is now behind us and thereby casts so much illumination on our possible futures Skeptical endlessly curious and almost contemporary with the terrible short century which is the subject of *Age of Extremes* his most widely read book Hobsbawm has for eighty five years been committed to understanding the interesting times through which he has lived Hitler came to power as Hobsbawm was on his way home from school in Berlin and the Soviet Union fell while he was giving a seminar in New York He was a member of the Apostles at King's College Cambridge took E M Forster to hear Lenny Bruce and demonstrated with Bertrand Russell against nuclear arms in Trafalgar Square He translated for Che Guevara in Havana had Christmas dinner with a Soviet master spy in Budapest and an evening at home with Mahalia Jackson in Chicago He saw the body of Stalin started the modern history of banditry and is probably the only Marxist asked to collaborate with the inventor of the Mars bar Hobsbawm takes us from Britain to the countries and cultures of Europe to America which he appreciated first through movies and jazz to Latin America Chile India and the Far East With *Interesting Times* we see the history of the twentieth century through the unforgiving eye of one of its most intensely engaged participants the incisiveness of whose views we cannot afford to ignore in a world in which history has come to be increasingly forgotten

Interesting Times Eric J. Hobsbawm, 2005 Eric Hobsbawm has been widely acclaimed as one of the greatest living historians Called a lyrical pungent and provocative memoir by Publishers Weekly *Interesting Times* offers a personal tour through what Hobsbawm terms the most extraordinary and terrible century in human history The book takes us from his birth in Alexandria Egypt and early schooling in Weimar Berlin to his student days as a Cambridge Red and Apostle at King's College Hobsbawm took E M Forster to hear Lenny Bruce demonstrated with Bertrand Russell against nuclear arms translated for Che Guevara in Havana and inaugurated the modern history of banditry With *Interesting Times* we see the making of one of the Left's most important intellectuals and the history of the twentieth century through the unforgiving eye of one of its most intensely engaged participants

The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford

Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective. It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional, continental and global developments. Readers will find innovative and stimulating chapters on various political, social and economic subjects by some of the leading scholars working on modern European history today.

Hobsbawm Gregory Elliott, 2010-10-05. From the early rumblings of the French revolution at the start of the long nineteenth century to the fall of the Soviet bloc at the close of the short twentieth century, historian Eric Hobsbawm is possibly the foremost chronicler of the modern age. Hobsbawm was a chronicler of revolutions, labour history, Empire and conflicts whose writings have informed the historical consciousness of scholars and general readers alike. From colonialism to capitalism, his trilogy of histories *The Age of Revolution*, *The Age of Capital* and *The Age of Empire* evidence his skill for identifying the plurality of forces at play in major historical events. Tracing his intellectual and political journey and encompassing the extraordinary historical events that marked his life, Gregory Elliott fills an analytical gap on Hobsbawm's scholarship and Marxist historiography.

A Mind and its Time Joshua L. Cherniss, 2013-03-28. *A Mind and its Time* offers the most detailed account to date of the genesis and development of Isaiah Berlin's political thought, philosophical views and historical understanding. Drawing on both little-known published material and archival sources, it locates Berlin's evolving intellectual interests and political positions in the context of the events and trends of interwar and post-war intellectual and political life. Special emphasis is placed on the roots of Berlin's later pluralism in philosophical and cultural debates of the interwar period, his concern with the relationship between ethics and political conduct, and his evolving account of liberty. Berlin's distinctive liberalism is shown to have been shaped by his response to the cultural politics of the interwar period and the political and ethical dilemmas of the early Cold War era, and to what Berlin saw as a dangerous embrace of an elitist, technocratic, scientific and managerial intellectual and political stance by liberals themselves. At the same time, Berlin's attitude toward what he called positive liberty emerges as far more complicated and ambivalent than is often realized. Joshua L. Cherniss reveals the multiplicity of Berlin's influences and interlocutors, the shifts in his thinking, and the striking consistency of his concerns and commitments. In shedding new light on Berlin's thought and offering a better understanding of his place in the development of liberal thought in the twentieth century, he makes fresh contributions both to understanding the intellectual history of the twentieth century and to discussions of liberty and liberalism in political theory.

Transformations of Contemporary Capitalism David Evans, 2023-10-02. In recent decades, there have been many attempts to describe, explore and explain the new post-modern capitalism of the twenty-first century. In this context, this book looks at one of the most exciting strands of this research in the late twentieth century: the flexible specialisation research programme (FSRP). Drawing on the history of ideas, discourse and literature on capitalism,

of the last four decades this book shows that although flexible specialisation anticipated some of the ways in which capitalism was being transformed in the late twentieth century they underestimated and failed to anticipate the forms of creative destruction and corporate digital control which were becoming embedded in the global capitalist accumulation dynamic itself The sudden disappearance of the Soviet Union and the end of history failed to open up the pathway for new forms of modern social democracy but gave rise instead to the new digital Behemoths Today the classical tendencies of capitalism as anticipated by Marx are all too present and despite talk of post capitalism and digital techno feudalism the landscape of monopolyfinance capital has consolidated itself The book counterposes the FSRP with the various Marxist interpretations of the capitalist transition together with the wider social and economic theories that emerged in the first decades for the twenty first century around for example the great acceleration de growth and post growth This book will be of interest to all readers concerned with heterodox political economy critical social theory intellectual history and above all the prospects for social transformation leading to social justice and an egalitarian enlightenment

Doing History Mark Donnelly, Claire Norton, 2020-11-16 Doing History bridges the gap between the way history is studied in school or as represented in the media and the way it is studied at university level History as an academic discipline has dramatically changed in recent decades and has been enhanced by ideas from other disciplines the influence of postmodernism and historians incorporation of their own reflections into their work Doing History presents the ideas and debates that shape how we do history today covering arguments about the nature of historical knowledge and the function of historical writing whether we can ever really know what happened in the past what sources historians depend on and the relative value of popular and academic histories This revised edition includes new chapters on public history and activist histories It looks at global representations of the past across the centuries and provides up to date suggestions for further reading presenting the reader with a thorough and current introduction to studying history at an academic level as well as a pathway to progress this study further Clearly structured and accessibly written it is an essential volume for all students embarking on the study of history

Dynamics of Emigration Stefan Berger, Philipp Müller, 2022-08-12 As a pioneering volume to consider

the impact of exile on historical scholarship in the twentieth century in a systematic and global way looking at Europe North America South America and Asia Dynamics of Emigration asks about epistemic repercussions on the experience of exile and exiles Analyzing both the impact that exile scholars had on their host societies and on the societies they had to leave the volume investigates exiles pathways to integration into new host societies and the many difficulties they face establishing themselves in new surroundings Focusing on the age of extremes and the realms of exile from fascist and right wing dictatorships as well as communist regimes the contributions look at the reasons scholars have for going into exile while providing side by side examination of the support organizations and paths for success involved with living in exile

The Oxford Handbook of the History of Communism S. A. Smith, 2014-01-09 The impact of Communism on the twentieth century was massive equal to that of the two world wars Until the fall of the Soviet Union in 1991 historians knew relatively little about the secretive world of communist states and parties Since then the opening of state party and diplomatic archives of the former Eastern Bloc has released a flood of new documentation The thirty five essays in this Handbook written by an international team of scholars draw on this new material to offer a global history of communism in the twentieth century In contrast to many histories that concentrate on the Soviet Union The Oxford Handbook of the History of Communism is genuinely global in its coverage paying particular attention to the Chinese Revolution It is global too in the sense that the essays seek to integrate history from above and from below to trace the complex mediations between state and society and to explore the social and cultural as well as the political and economic realities that shaped the lives of citizens fated to live under communist rule The essays reflect on the similarities and differences between communist states in order to situate them in their socio political and cultural contexts and to capture their changing nature over time Where appropriate they also reflect on how the fortunes of international communism were shaped by the wider economic political and cultural forces of the capitalist world The Handbook provides an informative introduction for those new to the field and a comprehensive overview of the current state of scholarship for those seeking to deepen their understanding

[A Crooked Line](#) Geoff Eley, 2008-12-18 Eley brilliantly probes transformations in the historians craft over the past four decades I found A Crooked Line engrossing insightful and inspiring Lizabeth Cohen author of A Consumers Republic A Crooked Line brilliantly captures the most significant shifts in the landscape of historical scholarship that have occurred in the last four decades Part personal history part insightful analysis of key methodological and theoretical historiographical tendencies since the late 1960s always thoughtful and provocative Eley s book shows us why history matters to him and why it should also matter to us Robert Moeller University of California Irvine Part genealogy part diagnosis part memoir Eley s account of the histories of social and cultural history is a tour de force Antoinette Burton Professor of History and Catherine C and Bruce A Bastian Professor of Global and Transnational Studies University of Illinois Eley s reflections on the changing landscape of academic history in the last forty years will interest and benefit all students of the discipline Both a native informant and an analyst in this account

Eley combines the two roles superbly to produce one of most engaging and compelling narratives of the recent history of History Dipesh Chakrabarty author of *Provincializing Europe* Using his own intellectual biography as a narrative device Geoff Eley tracks the evolution of historical understanding in our time from social history through the so called cultural turn and back again to a broad history of society A gifted writer Eley carefully winnows unique experiences from the universal and uses the interplay of the two to draw the reader toward an organic understanding of how historical thinking particularly the work of European historians has evolved under the influence of new ideas His work situates history within History and offers students scholars and general readers alike a richly detailed readable guide to the enduring value of historical ideas Geoff Eley is Professor of History at the University of Michigan

Civil Society in Communist Eastern Europe Matt Killingsworth, 2024-10-31 As well as promoting debates about liberal democracy the dramatic events of 1989 also bought forth a powerful revival in the interest of the notion of civil society This revival was reflected mainly in two broad tracts of literature The first focused primarily on events surrounding the Solidarity movement in Poland and the tumultuous events of 1980-81 The second was concerned with the Velvet Revolutions more broadly Following the events of 1989 there appeared a number of works sharing the common central argument that civil society played a key role in the overthrow of these Communist regimes in 1989 Killingsworth's book presents three broad arguments all of which reject the way civil society has been applied in the analysis of opposition and dissent in totalitarian Czechoslovakia the GDR and Poland First it argues that the totalitarian nature of Soviet type regimes means that it was not possible for a genuine civil society to exist Second the civil society paradigm as it has been applied to opposition and dissent in Soviet type regimes in Eastern Europe lacks analytical rigour Thirdly the book argues that the dominant liberal interpretation of dissenting opposition in Soviet type regimes is politically and morally flawed

History After Hobsbawm John Arnold, Matthew Hilton, Jan Rüger, 2018 What does it mean and what might it yet come to mean to write history in the twenty first century *History After Hobsbawm* brings together leading historians from across the globe to ask what being an historian should mean in their particular fields of study Taking their cue from one of the previous century's greatest historians Eric Hobsbawm and his interests across many periods and places the essays approach their subjects with an underlying sense of what role an historian might seek to play and attempt to help twenty first century society understand how we got here They present new work in their sub fields but also point to how their specialisms are developing how they might further grow in the future and how different areas of focus might speak to the larger challenges of history both for the discipline itself and for its relationship to other fields of academic inquiry Like Hobsbawm the authors in this collection know that history matters They speak to both the past and the present and in so doing introduce some of the most exciting new lines of research in a broad array of subjects from the medieval period to the present

The Barbarization of Warfare George Kassimeris, 2006-09 The images from Abu Ghraib prison in Baghdad have been a grim reminder of warfare's undiminished capacity for brutality and indiscriminate excess What

happened in Abu Ghraib has happened before the World War II and more recent wars and insurgencies in Algeria Congo Angola Vietnam Bosnia Kosovo Chechnya and many others all bear witness to the ever present human capacity to commit barbaric acts if circumstances allow What drives people to mistreat humiliate and torment others In an age when real time war violence and torture are becoming addictive forms of entertainment it is now more critical than ever to deepen our understanding of the extraordinary distortions of the human psyche and spirit that occur in wartime Eight distinguished scholars explore in this first collective effort the effects of the barbarization of warfare on our cultures and societies Contributors Joanna Bourke Niall Ferguson Jay Winter Richard Overly David Anderson Hew Strachan Paul Rogers Kathleen Taylor Marilyn Young Paul Rogers Anthony Dworkin Amir Weiner Mary Habeck and David Simpson *Transmitting Gender across Generations* Elizabeth Summerfield, 2022-02-02 The book interrogates the particular and generalisable qualities of the lived experience of gender in the twentieth century across three generations of a family It penetrates the surface appearance of change to uncover the invisible layers beneath that perpetuate the transmission of gender for both women and men Each sex is seen as enabled or disabled often in binary ways in reaching their full human potential Life stories offer a vehicle to explore not only the hidden depths of individual lives but also the unexamined assumptions of the patriarchal system The book argues that there are alternative forms of personal and collective power that challenge the crude popular concept associated with patriarchy a dynamic of domination and submission It supports the re conceptualisation of power as a cultural focus on the development of the full human potential rational physical and emotional of the collective and the individual It argues that the development of this type of power is the appropriate precedent for entry into the traditional conventions of private and public life that have acted for so long as proxies for the genuine maturation of both sexes and societies more generally *The Political Novel* Stuart A. Scheingold, 2010-07-18 Scholars from a variety of academic disciplines have been drawn into exhaustive analyses of what went wrong in the terrible 20th Century as Winston Churchill dubbed it In this book Stuart Scheingold adds political novels to those inquiries and argues that they make a distinctive and hitherto neglected contribution to the collective memory of the 20th Century These fictional accounts are the work of some of the century's most celebrated novelists Kafka Heller Boll Grass Vonnegut and others As refracted through the literary imagination the terrible 20th Century takes on new meaning that tends to elude historians and social scientists Novelists peer into the shattered lives the moral dilemmas and the emotional chaos of the century thus viewing a collective catastrophe through the everyday lives of victims victimizers temporizers opportunists true believers and those who simply averted their eyes In so doing these novelists reveal sometimes prophetically the etiology of catastrophe and both deepen our memory of the past and help us to think more clearly about the future **A Companion to the Gilded Age and Progressive Era** Christopher McKnight Nichols, Nancy C. Unger, 2022-06-15 A Companion to the Gilded Age and Progressive Era presents a collection of new historiographic essays covering the years between 1877 and 1920 a period which saw the U S emerge from
