

Owners' Comments

"If you insist, as we did, on the largest possible trailerable boat, this is probably about as well as you're going to do. Be advised, however, that the shoal keel is very inefficient when going to windward, although it's quite satisfactory on other points of sail. The boat will point quite high, but makes excessive leeway when heeled."

—1979 model in Georgia

"The first reason I bought the boat was trailerability. Then came construction, styling and livability. I'd like to be able to sail to windward better, but off the wind, I can blow the socks off other boats. My only complaint about the interior is that if a person is working in the galley, it's difficult for someone else to get by."

—1979 model in Michigan

"I bought the boat for its cost, size and trailerability. We've had boat pox at the waterline, some stress cracks on deck, and water leakage in, around and through the toerail. The shoal-draft keel creates problems in pointing and speed upwind, but it is a stiff boat, good for family cruising. I've had some overheating problems with the Renault diesel. The engine might be undersized."

—1979 model in Ohio

"The shoal keel makes her tender, but the boat stiffens up at a fairly steep angle. There are absolutely no handholds below. The non-zippered full headliner makes it very difficult to install anything on deck."

"The mast is stepped on deck, with no compression post. Our deck collapsed partially under the strain. We added a compression post and knees, but the deck is still concave in the step area."

"We've had some leaking through the toerail

and chainplates during rail-down sailing, which is most of the time here. There are major leaks around the main hatch during wind-driven rainstorms."

"The boat seems to be built for the lighter winds around LA. We are usually reefed here, but as long as the boat is not overpowered she makes a great daysailer. Surfing is really great in this light hull."

"The light weight and shoal draft make her a little squirrely; the helmsman almost never can relax. For cruising this can get tiring."

—1980 model in Hawaii

"The boat is not made for heavy seas. It is very tender."

"It has been a better boat than I thought it would be. We have modified the interior and fitted a dodger for cruising, and we enjoy the boat a lot, staying in San Francisco Bay and the Delta. We used the boat 150 days last year, 10% for daysailing, 90% for coastal cruising."

—1982 model in California

"We had the factory retrofit the boat with a two-cylinder Yanmar diesel a year after we bought the boat. With a three-bladed prop this is 500% better than an outboard on a bracket."

"This boat is not meant to be an offshore cruiser, and is probably perfect for our use as a large daysailer and occasional overnighter."

"The shallow draft and narrow beam seem to contribute to initial instability, but she stiffens up the further she heels."

"The boat sleeps my wife, myself and our seven kids all inside the cabin at once, but it is more comfortable with only three or four of the kids."

—1982 model in Colorado
