Ron Godfrey Moulton

Lantam Control Manual:

Moody's International Manual ,2000 **Foundations of Adult Nursing** Dianne Burns,2015-04-30 Covering the issues themes and principles that explain what it means to be a nurse today this book provides the theory students need to know and applies it to the diverse patient groups and settings that students will encounter on their placements Key features of the book are Introduces the core aspects of adult nursing An evidence based approach with discussion of literature policy and research and suggested further reading for every chapter Over 30 case studies to help students understand the realities of practice across a range of settings including primary care and the community Stop and think boxes which challenge assumptions and encourage reflection A companion website with sample questions for lecturers to use in seminars multiple choice questions for student revision and free SAGE journal articles The book has been closely developed in line with the NMC Standards and Essential Skills Clusters and supports students across their entire degree programme as they develop into nurses of the future ready to deliver and lead care **Rabies in Man and Animals** Sudhi Ranjan Garg,2013-10-23 Rabies is the deadliest zoonotic disease that threatens humans and animals on all continents except Antarctica Asia and Africa are worst affected as more than 95 per cent of rabies associated human deaths occur in these regions India alone bears about 36 per cent of the global human rabies burden Dogs are the main transmitters of rabies that potentially threaten over 3 billion people in Asia and Africa Many developed nations have been able to successfully control dog rabies but continue to face the risk from wildlife including bats Bat rabies is responsible for most human rabies deaths in the United States of America and Canada but has emerged as a public health threat in Australia Latin America and Western Europe as well Despite being vaccine preventable rabies continues to haunt the mankind Poor resources is a major constraint but the factors like low priority attributed to rabies misconceptions in the community about the disease and unsystematic approach for its prevention and control are also responsible for the grim situation Targets have been set for elimination of human and dog rabies in all Latin American countries by 2015 and of human rabies transmitted by dogs in South East Asia by 2020 However the myths prevailing among the people together with inadequate knowledge of the health professionals veterinarians and the civic body staff about the rabies prevention and control strategies might make the task very difficult This book comprising eight chapters elaborates the causation of rabies in man and animals its global epidemiology risk analysis and effective strategies for the management of exposures Proven methods of rabies prevention and control have been discussed in length along with the challenges and ways to overcome the constraints through intersectoral coordination The inclusion of 200 frequently asked questions is a unique feature of the book which may help not only the common people and pet lovers in clearing their doubts about rabies in man and animals also be equally instrumental in updating the knowledge and skills of the public health personnel veterinarians and other professionals Apt illustrations and simple language make the contents of the book easily comprehensible and a reading pleasure **Annual Handbook** Indiana High
