## **Makerere Postgraduate Announcements 2015 16:**

*Postgraduate Research Engagement in Low Resource Settings* Atibuni, Dennis Zami, 2019-09-27 The general academic progression and particularly research engagement of postgraduate students is characterized by various problems such as high dropout rates longer completion times low graduation rates and high repetition or retake rates This means that there are far fewer students pursuing postgraduate studies at tertiary institutions and universities than there are at the lower levels of education Yet there is growing demand for postgraduate education given its strong projected association with socioeconomic transformation at national and international levels among developed and developing countries alike

*Postgraduate Research Engagement in Low Resource Settings* sets out to garner strategies for fostering efficiency of research conduct among the students and faculty so as to enhance high quality output for the envisaged personal societal national and international socioeconomic transformation Covering a range of topics such as intellectual property mental health and quality assurance this book is ideal for research supervisors higher education faculty librarians educators administrators researchers academicians and students

**Supporting Entrepreneurship and Innovation** Janet Crum, Samantha Schmehl Hines, 2019-04-29 Libraries have recently begun doing more to support entrepreneurship and innovation within their communities This volume explores how this has come about looking at libraries from across North America Europe and Africa and helps position readers to better understand what is happening and how this can be brought to further institutions

**Research Universities in Africa** Cloete, Nico, Bunting, Ian, 2018-11-09 From the early 2000s a new discourse emerged in Africa and the international donor community that higher education was important for development in Africa Within this zeitgeist of converging interests a range of agencies agreed that a different collaborative approach to linking higher education to development was necessary This led to the establishment of the Higher Education Research and Advocacy Network in Africa Herana to concentrate on research and advocacy about the possible role and contribution of universities to development in Africa This book is the final publication to emerge from the Herana project The project has also published more than 100 articles chapters reports manuals and datasets and many presentations have been delivered to share insights gained from the work done by Herana Given its prolific dissemination it seems reasonable to ask whether this fourth and final publication will offer the reader anything new This book is certainly different from previous publications in several respects First it is the only book to include an analysis of eight African universities based on the full 15 years of empirical data collected by the project Second previous books and reports were published mid project This book has benefited from an extended gestation period allowing the authors and contributors to reflect on the project without the distractions associated with managing and participating in a large scale project For the first time some of those who have been involved in Herana since its inception have had the opportunity to at least make an attempt to see part of the wood for the trees Different does not necessarily mean new An emphasis on the newness of the data and perspectives presented in this

book is important because it shows that it is more than a historical record of a donor funded project Rather each chapter in this book brings to a lesser or greater extent something new to our understanding of universities research and development in Africa Scholars in the Marketplace. The Dilemmas of Neo-Liberal Reform at Makerere University, 1989-2005

Mahmood Mamdani, 2007-09-15 Scholars in the Marketplace is a case study of market based reforms at Uganda's Makerere University With the World Bank heralding neoliberal reform at Makerere as the model for the transformation of higher education in Africa it has implications for the whole continent At the global level the Makerere case exemplifies the fate of public universities in a market oriented and capital friendly era The Makerere reform began in the 1990s and was based on the premise that higher education is more of a private than a public good Instead of pitting the public against the private and the state against the market this book shifts the terms of the debate toward a third alternative than explores different relations between the two The book distinguishes between privatisation and commercialisation two processes that drove the Makerere reform It argues that whereas privatisation the entry of privately sponsored students is compatible with a public university where priorities are publicly set commercialisation financial and administrative autonomy for each faculty to design a market responsive curriculum inevitably leads to a market determination of priorities in a public university The book warns against commercialisation of public universities as the subversion of public institutions for private purposes

*Second International Handbook of Urban Education* William T. Pink, George W. Noblit, 2017-01-06 This second handbook offers all new content in which readers will find a thoughtful and measured interrogation of significant contemporary thinking and practice in urban education Each chapter reflects contemporary cutting edge issues in urban education as defined by their local context One important theme that runs throughout this handbook is how urban is defined and under what conditions the marginalized are served by the schools they attend Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of nations This second handbook focuses on factors such as social stratification segmentation segregation racialization urbanization class formation and maintenance and patriarchy The central concern is to explore how equity plays out for those traditionally marginalized in urban schools in different locations around the globe Researchers will find an analysis framework that will make the current practice and outcomes of urban education and their alternatives more transparent and in turn this will lead to solutions that can help improve the life options for students historically underserved by urban schools *Islam in Uganda* Joseph Kasule, 2022

Examines the historical political religious and social dynamics of Muslim minority status in Uganda and important themes of pre and post colonial political community religion and national identity Between 2012 and 2016 several Muslim clerics were murdered in Uganda there is still no consensus as to who was responsible In this book Joseph Kasule seeks to explain this by examining the colonial and postcolonial history of the Muslim minority and questions of Muslim identity within a non Muslim state Challenging prevalent scholarship that has homogenized Muslims political identity Kasule demonstrates that Muslim

responses to power have been varied and multiple Beginning with the pre colonial political community in Buganda and Muteesa I s attempted Islamization of the country using Islam as a centralizing ideology the author discusses how the political status of Islam and Muslims in Uganda has been defined under successive regimes Muteesa I s Islamization faltered when Christianity entered Buganda in the latter half of the 19th century resulting in division between Muslim and Christian sections The colonial period created a new type of political project that defined the Muslim question as one of representation and Kasule discusses how this laid the foundation for a politics of Muslim containment within a predominantly Christian power He examines contrasting urban based Muslim organizations and rural expressions of Islam tension between representative claims of Muslim leaderships within the demand for Muslim autonomy and the rise of new reform groups As these splits turned violent new Muslim publics emerged around opposing centres of Muslim power which sought different resolutions to their minority situation East Africa Kenya Uganda Tanzania Rwanda Burundi Makerere Institute of Social Research
