Making Yugoslavs Identity In King Aleksandar S Yugoslavia:

Making Yugoslavs Christian Axboe Nielsen,2014-01-01 Christian Axboe Nielsen uses extensive archival research to explain the failure of King Aleksandar s dictatorship s program of forced nationalization in the interwar era **The Politics of Football in Yugoslavia** Richard Mills,2018-03-30 Winner of the Lord Aberdare Literary Prize for 2018 Even before Tito s Communist Party established control over the war ravaged territories which became socialist Yugoslavia his partisan forces were using football as a revolutionary tool In 1944 a team representing the incipient state was dispatched to play matches around the liberated Mediterranean This consummated a deep relationship between football and communism that endured until this complex multi ethnic polity tore itself apart in the 1990s Starting with an exploration of the game in the short lived interwar Kingdom this book traces that liaison for the first time Based on extensive archival research and interviews it ventures across the former Yugoslavia to illustrate the myriad ways football was harnessed by an array of political forces Communists purposefully re engineered Yugoslavia s most popular sport in the tumult of the 1940s using it to integrate diverse territories and populations Subsequently the game advanced Tito s distinct brand of communism with its Cold War era policy of non alignment and experimentation with self management Yet even under tight control football was racked by corruption match fixing and violence Alternative political and national visions were expressed in the stadiums of both Yugoslavias and clubs players and supporters ultimately became perpetrators and victims in the countries violent demise In Richard Mills hands the former Yugoslavia s stadiums become vehicles to explore the relationship between sport and the state society nationalism state building inter ethnic tensions and war The book is the first in depth study of the Yugoslav game and offers a revealing new way to approach the complex history of Yugoslavia **Czechoslovakism** Adam Hudek,Michal Kopeček,Jan Mervart,2021-09-30 This collection systematically approaches the concept of Czechoslovakism and its historical progression covering the time span from the mid nineteenth century to Czechoslovakia s dissolution in 1992 1993 while also providing the most recent research on the subject Czechoslovakism was a foundational concept of the interwar Czechoslovak Republic and it remained an important ideological political and cultural phenomenon throughout the twentieth century As such it is one of the most controversial terms in Czech Slovak and Central European history While Czechoslovakism was perceived by some as an effort to assert Czech domination in Slovakia for others it represented a symbol of the struggle for the Republic s survival during the interwar and Second World War periods The authors take care to analyze Czechoslovakism s various emotional connotations however their primary objective is to consider Czechoslovakism as an important historical concept and follow its changes through the various cultural political contexts spanning from the mid nineteenth century to the breakup of Czechoslovakia in 1993 Including the work of many of the most eminent Czech and Slovak historians this volume is an insightful study for academic and postgraduate student audiences interested in the modern history of Central and Eastern Europe nationality studies as well as intellectual history political science and sociology

The Making of a World Order Albert Wu, Stephen W. Sawyer, 2023-09-14 Why does 1919 deserve further study and debate a hundred years later What lessons for global history may we learn from the world order created at the end of the Great War Drawing insight from the global turn of the past several decades that has forced us to reconsider the most important world events and processes since the French Revolution and especially the growing interest in World War I as a global conflict that extended far beyond the borders of Europe this volume explores the global political ramifications of the treaties prepared at the Paris Peace Conference in 1919 by focusing on key topics how the Paris Peace Conference re shaped the geo political configurations of the Middle East the importance of transformations in Asia and particularly China in the immediate postwar period the shifts in Southeastern Europe new feminist movements in Central Europe and the pre history of neoliberalism Read together the papers demonstrate how the peace treaties signed in 1919 and 1920 marked a profound transformation on local national continental and global scales

Prostitution in Twentieth-Century Europe Sonja Dolinsek, Siobhán Hearne, 2023-05-08 This book places prostitution at the very centre of European history in the twentieth century With its wide geographical focus from Italy to the USSR via Sweden Germany occupied Czechoslovakia and Yugoslavia as well as the international stage of the United Nations this book encourages comparative perspectives which have the potential to question deconstruct and re adjust distinctions between western eastern northern and southern European historical experiences This book moves beyond exploring state regulated prostitution which was the dominant approach to managing commercial sex across Europe in the nineteenth and early twentieth centuries State regulation combined police surveillance the registration of women selling sex or suspected of doing so and compulsory medical examinations for registered women as well as various restrictions on personal movement and freedom The nine chapters shift focus onto the decades after the abolition of state regulated prostitution well into the second half of the twentieth century to examine the ruptures and continuities in state administrative and policing practices following the end of widespread legal toleration The varied chronology extends the parameters of existing historiography and explores how states grappled to

understand or impose control over the commercial sex industry following the far reaching social economic and political upheaval of the Second World War The chapters in this book were originally published as a special issue of European Review of History

A Transnational History of Forced Migrants in Europe Bastiaan Willems, Michal Adam Palacz, 2022-08-11 This book is a vital exploration of the harrowing stories of mass displacement that took place in the first half of the 20th century from the perspective of forced migrants themselves The volume brings together 15 interrelated case studies which show how the deportation evacuation and flight of millions of people as a result of the First World War intensified rather than alleviated ethnic conflicts which culminated in population transfers on an even larger scale during and immediately after the Second World War While each chapter focuses on a different group of refugees and displaced persons the text as a whole looks at the experience of forced migration as a complex set of evolving relationships with the receiving society the homeland the broader diaspora and other migrant communities living within the same host country This innovative four dimensional model provides an overarching conceptual framework that binds the chapters together within the longer arc of European history By going beyond the conventional narratives of national victimhood and un successful assimilation of refugees A Transnational History of Forced Migrants in Europe reveals that identities of forced migrants in the first half of the 20th century were individualised hybrid and constantly reconstructed in response to socioeconomic forces and political pressures The case studies collected in this volume further suggest that age gender social class educational level and the personal experiences of unwilling nomads are more important to the understanding of forced migration history than ethno religious identities of victims and perpetrators

The Politics of Smallness in Modern Europe Samuël Kruizinga, 2022-03-24 Rather than simply assuming that some states are small and others are big The Politics of Smallness in Modern Europe delves deep into the construction of different size based hierarchies in Europe and

explores the way Europeans have thought about their own state's size and that of their continental neighbours since the early 19th century. By positing that ideas about size are intimately connected with both basic discourses about a state's identity and policy discourses about the range of options most appropriate to that state, this multi-contributor volume presents a novel way of thinking about what makes one state in the eyes of both its own inhabitants and those of others different from others and what effects these perceived differences have had and continue to have on domestic European and global politics. Bringing together an international team of historians and political scientists, this nuanced and sophisticated study examines the connections between shifting ideas about a state's relative size, competing notions of national interest and mission, and international policy in modern Europe and beyond.

Serbia Marko Attila Hoare, 2024-02-15 This is the first in-depth English language history of modern Serbia in nearly half a century. It covers the period from the Serbian state's revolutionary rebirth in the early nineteenth century under the rebel leaders Karadorde Petrovic and Milo Obrenovic, its turbulent history of wars, uprisings, and dynastic rivalries, the triumph of Yugoslav unification in 1918, and the catastrophe of occupation by Nazi Germany in 1941. It shows how the birth of the modern nation-state involved the creation of a new elite, dynasty, army, and bureaucracy, whose rule over the peasantry generated a popular resistance that would ultimately take form in Nikola Pašić's mighty People's Radical Party. The resulting struggle between elitist Westernisers and pro-Russian populists became entwined with the struggle for pan-Serb and Yugoslav liberation and unification. These causes came together with the Sarajevo assassination of 1914, which triggered the First World War. Existing histories of the Yugoslav kingdom that emerged from that war focus on the national conflict between Serbs, Croats, Bosnian Muslims, and others, but Marko Attila Hoare challenges this narrative. He shows how the new kingdom's politics continued to be dominated by the ongoing internal Serbian power struggle, bringing renewed disaster to Yugoslavia and its peoples.

An International Rediscovery of World War One Robert B. McCormick, Araceli Hernández-Laroche, Catherine G. Canino, 2020-08-31 International contributors from the fields of political science, cultural studies, history, and literature grapple with both the local and global impact of World War I on marginal communities in China, Syria, Europe, Russia, and the Caribbean. Readers can uncover the neglected stories of this World War I as contributors draw particular attention to features of the war that are underrepresented, such as Chinese contingent labor, East Prussian deportees, remittances from Syrian immigrants in the New World to struggling relatives in the Ottoman Empire, the war effort from Serbia to Martinique, and other war experiences. By redirecting focus away from the traditional areas of historical examination, such as battles on the Western Front and military strategy, this collection of chapters, international and interdisciplinary in nature, illustrates the war's omnipresence throughout the world, in particular its effect on less studied peoples and regions. The primary objective of this volume is to examine World War I through the lens of its forgotten participants, neglected stories, and underrepresented peoples.

tracks the adventures of five scrappy resourceful working class boys who endeavor to free an equally plucky girl from the evil clutches of a convent school and its fearsome nuns While weighing in on various contemporary political issues the story is unpredictable action packed and relayed in richly colloquial language Mati s photocollages show what happened in the meantime between the songs episodes of the poem providing clever twists to the linear plot as well as an illustration of the surrealist concepts of time space and the transformative capabilities of art
