Regional, innovativ und gesund Steven Engler,Oliver Stengel,Wilfried Bommert,2016-06-13 Aktuell steht die Weltbevölkerungen vor vielen entscheidenden Herausforderungen die es zu bewältigen gilt Der globale Klimawandel und die zunehmende Ressourcenverknappung sind dabei die bekanntesten Beispiele Eine zentrale Herausforderung wird bei der Debatte gerne vernachlässigt herabgewürdigt oder gar vergessen Nämlich das Ernährungsproblem Weltweit leiden immer noch ca 850 Millionen Menschen an chronischer Unterernährung Das Problem ist dabei kein Phänomen das strikt auf den Afrikanischen Kontinent begrenzt ist Vielmehr sind viele Staaten im sogenannten Globalen Süden von Hunger und Mangelernährung bedroht Die globale Unterernährung stellt

aber nur eine Seite der Medaille dar. Spätestens seit dem Jahr 2008 ist das Problem der weltweiten Verbreitung gleichermaßen dramatisch. Nach Schätzungen von diversen Organisationen sind ca. 1,4 Milliarden Menschen übergewichtig und knapp eine halbe Milliarde Menschen fettleibig (BMI > 30). Nimmt man all diese Zahlen zusammen, sind ca. 30% der Weltbevölkerung entweder unter- oder übergewichtig, was zu starken Belastungen für Gesundheit, Wirtschaft etc. führt. Die Lösung für beide Probleme ist der Wandel zu nachhaltigen Ernährungssystemen. Der vorliegende Sammelband setzt sich mit diesen Themen auseinander und stellt sie in den Kontext einer neuen Großen Transformation.

Climate Change and the Role of Education
Walter Leal Filho, Sarah L. Hemstock, 2019-11-28. This book offers insights into the educational dimensions of climate change and promotes measures to improve education in this context. It is widely believed that education can play a key role in finding global solutions to many problems related to climate change. Indeed, education as a process not only helps young people to better understand and address the impact of global warming but also fosters better attitudes and behaviours to aid efforts towards mitigating climate change and adapting to a changing environment. But despite the central importance of education in relation to climate change, there is a paucity of publications on this theme. Against this background, the book focuses on the educational aspects of climate change and showcases examples of research projects and other initiatives aimed at educating various audiences. It also provides a platform for reflections on the role education can play in fostering awareness on a changing climate. Presenting a wide range of valuable lessons learned, which can be adapted and replicated elsewhere, the book appeals to educators and practitioners alike.

The End of the Global features a collection of papers presented at the first DEN International Student Conference in 2017. This publication is one of many projects that the Democratic Education Network (DEN) has been responsible for since its launch in 2016 within the department of Politics and International Relations at the University of Westminster. In addition to supporting various other initiatives, DEN encourages and inspires students to research, get involved in student-led workshops, and publish magazines and journals. It hopes to increase our knowledge about how to open up deliberative and empowering spaces for students and how to maximise the impact of their projects on other students' experience. This book is a result of eclectic ideas and hard work put in by many students and covers the views of student authors on various economic, political, and social crises that shape our world today. We hope that we have taken an important step in achieving the aims of DEN through encouraging students to believe in themselves and push the boundaries of imagination and possibility. Education should not only be about knowledge, gathering skills, enhancement, and degree acquisition but be a transformative life experience. If students go away with more confidence, more humility, and better equipped to deal with the various challenges and opportunities that the world around them offers, we would have succeeded as educationists. Prof. Dibyesh Anand, Head of the Department of Politics and International Relations, University of Westminster. This book is produced by some of the students active in the Democratic Education Network. It is essentially a collective work of the former and present students in the department to learn and explore their own world independently. Dr. Farhang Morady, Academic Coordinator of DEN, University of Westminster.
