Sullivan, Stephen Barthorpe, Stephen Robbins, 2011-02-25 Every major industry except construction uses logistics to improve  
its bottom line Poor logistics is costing the construction industry at least 3 billion a year according to a report Improving  
Construction Logistics published by the Strategic Forum for Construction Additional costs arise as a result of operatives  
waiting for materials and skilled craftsmen being used for unskilled jobs Inadequate management of logistics also has an  
adverse effect on quality causes delays to projects and adds to the health and safety risks on site This practical book  
highlights the benefits of good logistics as well as the use of consolidation centres on projects It shows how reduction in  
transport movements less money tied up in stock less waste and the more efficient use of skilled craftsmen will reduce the  
cost of projects reduce construction time improve quality reduce risks to health and safety improve environmental  
performance and generally improve the image of the industry The authors offer practical ways of achieving these benefits  
through integrated project teams and supply chains and the increased adoption of information technology including

electronic communications bar coding and electronic tagging for tracing products They also show how specific roles for each part of the industry can help to improve logistics Practical clear and accessible First book to address logistics in construction Written by the industry recognized logistics experts Tackles issues of key concern efficient use of labour sustainability waste and supply chain management      **Management Information Systems for the Information Age** Stephen Haag,2001
