Carolina Vendil Pallin, 2008-08-29 This book examines reform of the Russian military since the end of the Cold War It explores the legacy of the Soviet era explaining why at the time of the fall of the Soviet Union radical reform was long overdue in the wake of changing military technology new economic and political realities and the emergence of new threats and challenges It discusses the problems encountered by Gorbachev in his attempts to promote military reform in the late 1980s and goes on to analyse in detail the mixed fortunes of the policies of his successors Yeltsin and Putin It describes how the onset of war in Chechnya in 1994 provided clear evidence of the weaknesses of the Russian military in modern conflicts and shows that although the Chechnya debacle did provide some impetus for reforms in the armed forces in 1997 98 the momentum was not continued under the Putin government It argues that Putin s policies of bolstering central control over all aspects of decision making has left untouched many key problems facing the Russian military including infighting between different force structures lack of transparency and independent scrutiny over defence spending and absence of consensus on the main threats to Russia and optimum force posture Moreover it argues that in his attempts to concentrate all means of control to a corrupt and inefficient Kremlin bureaucracy Putin has deprived himself of all alternative channels of independent scrutiny control and oversight thus exacerbating the problems that continue to plague the Russian military

Externalizing Migration Management Ruben Zaiotti, 2016-02-05 The extension of border controls beyond a country s territory to regulate the flows of migrants before they arrive has become a popular and highly controversial policy practice Today remote control policies are more visible complex and widespread than ever before raising various ethical political and legal issues for the governments promoting them The book examines the externalization of migration control from an interdisciplinary and comparative perspective focusing on remote control initiatives in Europe and North America with contributions from the fields of politics sociology law geography anthropology and history This book uses empirically rich analyses and compelling theoretical insights to trace the evolution of remote control initiatives and assesses their impact and policy implications It also explores competing theoretical models that might explain their emergence and diffusion Individual chapters tackle some of the most puzzling questions underlying remote control policies such as the reasons why governments adopt these policies and what might be their impact on migrants and other actors involved **The Oxford Handbook of**

man also considers what lessons can be learned from Russia's military assault for understanding the global agenda and for the study of domestic and international politics in the twenty first century This book written by a leading expert on Russian politics will be of great value to students and scholars in politics and to anyone interested in Russia and in the causes and consequences of the war against Ukraine **ECKM 2019 20th European Conference on Knowledge Management 2**

VOLS Dr. Eduardo Tomé,2019-09-05 Cultural Autonomy in Contemporary Europe David J. Smith,Karl Cordell,2013-10-18

In this volume some of the world's leading scholars involved in researching the fields of ethno-politics nationalism and ideas of nation and state have come together to produce a work that is both original and accessible The volume explores the rich but sadly neglected tradition of thought on non territorial cultural autonomy as exemplified by the work of Karl Renner and Otto Bauer and the European Nationalities Congress of the 1920s Through a combination of theoretical analysis and case study approaches the authors challenge conventional thinking on how best to reconcile competing claims over territory and cultural expression Drawing upon a range of examples from countries such as Russia Romania and Hungary and by comparing the situation of territorially based ethnic minorities with those principally the Roma who lack identification with a given state or states the authors of this volume seek to supply answers and question received truths **Complex Social**
