relevance of financial statement information for performance management purposes is discussed in detail. In addition, the most widely spread financial performance indicators are illustrated using real world examples. The book also includes detailed content on value based management control concepts. In a consecutive chapter, performance measurement is linked with strategy while extensively discussing the Balanced Scorecard as a key tool in strategic performance management. The remaining parts of the book deal with management reporting as one of the main operative tasks in management accounting practice. The book closes with insight into new fields and developments that currently influence management accounting practices and research and promise to play an increasingly important role in the future.

Indonesia Leadership in the Midst of World Financial Crisis Hutabarat, 2014-08-11. The world is currently in crisis, a financial crisis of 2008 up to 2012. The phenomena of financial crisis is not new as the world experienced it on 1930s Great Depression, not to mention in the late 1980s and the famous 1996-2000 Asian financial crisis that held Indonesia and most countries in Asia in monetary crisis. Is there a way for countries to turn this? International Monetary Fund (IMF) came as a solution to cure those countries in need of fund that includes Indonesia. Indonesia is not cured. However, in 2012, Indonesia declared their pledge to IMF of 1 Billion dollar in terms of bonds and even the Indonesian president by UN Secretary General is appointed as High level Panel advisor of Millennium Development Goals beyond 2015. What is the relevancy of Indonesia pledge to IMF of 1 Billion dollar in the midst of world financial crisis? This paper looks at the world financial crisis from Indonesian perspective.

Sustainability Accounting and Reporting Stefan Schaltegger, Martin Bennett, Roger Burritt, 2006-09-14. This book provides an up to date overview of the most current developments in environmental and sustainability accounting and its links to reporting. This fourth volume in the Environmental Management Accounting Network (EMAN) series is characterized by a broad geographical and a contextual range of topics. Contributions from nearly all continents discuss new developments in environmental accounting and investigate topics and links between corporate environmental and sustainability issues as well as between strategy measurement and information management or between accounting and reporting. For the last five years, EMAN, the environmental and sustainability accounting network, has developed from a small dedicated group of European academics to a full fledged international network with strong links to corporate accounting and reporting practitioners, international organizations and regulators. The network provides a platform for the exchange of ideas and the sharing of experiences with environmental and sustainability accounting and reporting. EMAN Global www.eman-global.net serves as an umbrella organisation of the regional sections: in the Asia Pacific (EMAN AP), Europe (EMAN EU), Americas (EMAN AM) and Africa (EMAN AF). Based on the success of the annual conferences of the European and Asia Pacific sections, the American and African groups are planning their first workshops. The regional sections of EMAN have their own independent work agendas but are linked with each other through the steering committee of EMAN GLOBAL and by participating in other regional conferences, fora and workshops.
