Moine, 2016-03-09 Examining the place of nature in Victorian women's poetry Fabienne Moine explores the work of canonical and long neglected women poets to show the myriad connections between women and nature during the period At the same time she challenges essentialist discourses that assume innate affinities between women and the natural world Rather Moine shows Victorian women poets mobilised these alliances to defend common interests and express their engagement with

social issues While well known poets such as Elizabeth Barrett Browning and Christina Rossetti are well represented in Moine s study she pays particular attention to lesser known writers such as Mary Howitt or Eliza Cook who were popular during their lifetimes or Edith Nesbit whose verse has received scant critical attention so far She also brings to the fore the poetry of many non professional poets Looking to their immediate cultural environments for inspiration these women reconstructed the natural world in poems that raise questions about the validity and the scope of representations of nature ultimately questioning or undermining social practices that mould and often fossilise cultural identities Sanitary Reform in Victorian Britain, Part I Vol 3 Michelle Allen-Emerson,Tina Young Choi,Christopher S Hamlin,2021-12-24 Sanitary reform was one of the great debates of the nineteenth century This reset edition makes available a modern edited collection of rare documents specifically addressing sanitary reform An extensive general introduction sets the material in context and extends the debate to provide a contemporary international perspective **A Remarkable Clerical Career** David

Gurney,2025-06-26 Many Victorian clerics had fairly routine lives but Archer Gurney s was far from pedestrian After his childhood in Cornwall the family spent ten years on the continent Back in England Archer trained as a barrister stood for parliament and was ordained He worked amongst the poor in Soho spent twelve years as a chaplain in Paris and then held a series of curacies in England and Wales Throughout his life Archer wrote prolifically and the Memoir includes many extracts from his published and unpublished poetry and dramas He also corresponded or had encounters with prominent literary figures of the day including Wordsworth Tennyson the Austrian poet Grillparzer Matthew Arnold Charles Kingsley and Charles Dickens The detailed and unfinished Memoir of his life between 1820 and 1855 written by his brother Augustus is included in full **Chronometres** Krista Lysack,2019-09-20 What does it mean to feel time to sense its passing along the sinews and nerves of the body as much as the synapses of the mind And how do books as material arrangements of print and paper mediate such temporal experiences Chronometres Devotional Literature Duration and Victorian Reading Culture is a study of the time inflected reading practices of religious literature the single largest market for print in Victorian Britain It examines poetic cycles by John Keble Alfred Tennyson Christina Rossetti and Frances Ridley Havergal family prayer manuals Sunday reading books and periodicals and devotional gift books and daily textbooks Designed for diurnal and weekly reading chronometrical literature tuned its readers attentions to the idea of eternity and the everlasting peace of spiritual transcendence but only in so far as it parcelled out reading into discrete increments that resembled the new industrial time scales of factories and railway schedules Chronometres thus takes up print culture affect theory and the religious turn in literary studies in order to explore the intersections between devotional practice and the condition of modernity It argues that what defines Victorian devotional literature is the experience of its time signatures those structures of feeling associated with its reading durations For many Victorians reading devotionally increasingly meant reading in regular portions and often according to the calendar and work day in contrast to the liturgical year Keeping pace with the temporal measures of

modernity devotion became a routinized practice a way of synchronizing the interior life of spirit with the exigencies of clock time Chronometres considers how the deliverances afforded through time scaled reading are persistently materialised in the body both that of the book and of the reader Recognizing that literature and devotion are not timeless abstractions it asks how the materiality of books conceived as horological relationships through reading might bring about the felt experience of time Even as Victorian devotion invites us to tarry over the page it also prompts the question what if it is eternity that keeps time with the clock

Greek Epigram in Reception Gideon Nisbet, 2013-10-31 Greek Epigram in Reception is a

chronological survey of the reception history of the Greek Anthology a Byzantine collection of ancient Greek short poems known as epigrams Tracing the strange evolution of the Greek Anthology from the early nineteenth century to the years after the first World War the volume analyses the complex webs of rhetoric that are spun as writers and translators bring their different agendas to bear on the Anthology's text pruning it to meet their needs As so little was known about its poets and because it stood for the Anthology of the Greeks and their culture the text became the battleground during the 1870s 90s on which normative and dissident interpretations of Ancient Greece were fought out An emergent mass readership became caught between opposing and rhetorically loaded accounts casting the Anthology and thus the ancient race on whom the British were supposed to be modelling themselves as patriots and doting spouses or lovers of male Beauty like the Decadent sensation Oscar Wilde The after effects of this cultural war were to stretch into the 1920s and still echo today *Queen Boudica and Historical Culture in Britain* Martha Vandrei, 2018 Taking a long chronological view and a wide ranging interdisciplinary approach this is an innovative and distinctive book It is the definitive work on the posthumous reputation of the ever popular warrior queen of the Iceni Queen Boadicea Boudica exploring her presence in British historical discourse from the early modern rediscovery of the works of Tacitus to the first historical films of the early twentieth century In doing so the book seeks to demonstrate the continuity and persistence of historical ideas across time and throughout a variety of media This focus on continuity leads into an examination of the nature of history as a cultural phenomenon and the implications this has for our own conceptions of history and its role in culture more generally While providing contemporary contextual readings of Boudica's representations Martha Vandrei also explores the unique nature of historical ideas as durable cultural phenomena articulated by very different individuals over time all of whom were nevertheless engaged in the creative process of making history Thus this study presents a challenge to the axioms of cultural history new historicism and other mainstays of twentieth and twenty first century historical scholarship It shows how long before professional historians sought to monopolise historical practice audiences encountered visions of past ages created by antiquaries playwrights poets novelists and artists all of which engaged with articulated and even defined the meaning of historical truth This book argues that these individual depictions variable audience reactions and the abiding notion of history as truth constitute the substance of historical culture
