Cataloging Martha M. Yee,2007-10-30 Libraries archives and museums hold a wide variety of moving images all of which require the same level of attention to issues of organization and access as their print counterparts Consequently the people who create collection level records and metadata for these resources need to be equally conversant in the principles of cataloging Martha Yee covers both descriptive AACR2R AMIM and FIAF rules and subject cataloging with a focus on LCSH In the process the reader is encouraged to think critically and to be prepared to make decisions in ambiguous situations where solutions to problems are not always obvious or clearly dictated by specific rules The National Union Catalog.
