

UNLEASHED MONK

These monks have found a way to tap into their unrealized potential, and begin radiating waves of Ki. Their bodies undergo physical changes when unleashed, changing the color of their hair, eyes, skin. This is dangerous, however, and an untrained monk who does this will die from the strain on their body.

Fearsome Ki. The Ki that radiates from an unleashed monk is palpable. It feels like a crushing weight is bearing down on you, and only the strong willed can resist it.

Rockless. The strain an unleashed monk goes through is mental as well. They have to resist a battle rage that overcomes them, threatening to push themselves into death.

TACTICS

The unleashed monk dashes about the battlefield, spreading attacks through its enemies. It uses Unleash Ki when possible, and Flash Step to move between targets.

Flash Step (Costs 2 Actions). The monk can teleport up to 60 feet and make a Ki Strike Attack.

The Oxford Guide to the Romance Languages Adam Ledgeway, Martin Maiden, 2016-09-05 The Oxford Guide to the Romance Languages is the most exhaustive treatment of the Romance languages available today. Leading international scholars adopt a variety of theoretical frameworks and approaches to offer a detailed structural examination of all the individual Romance varieties and Romance speaking areas including standard non standard dialectal and regional varieties of the Old and New Worlds. The book also offers a comprehensive comparative account of major topics, issues and case studies across different areas of the grammar of the Romance languages. The volume is organized into 10 thematic parts. Parts 1 and 2 deal with the making of the Romance languages and their typology and classification respectively. Part 3 is devoted to individual structural overviews of Romance languages, dialects and linguistic areas while Part 4 provides comparative overviews of Romance phonology, morphology, syntax, semantics and pragmatics and sociolinguistics. Chapters in Parts 5-9 examine issues in Romance phonology, morphology, syntax, semantics and pragmatics and discourse respectively while the final part contains case studies of topics in the nominal group, verbal group and the clause. The book will be an essential resource for both Romance specialists and everyone with an interest in Indo-European and comparative linguistics.
