Banks,2022-04-19 A surprising and fascinating look at how Black culture has been leveraged by corporate America Open the brochure for the Alvin Ailey American Dance Theater and you ll see logos for corporations like American Express Visit the website for the Apollo Theater and you ll notice acknowledgments to corporations like Coca Cola and Citibank The Martin Luther King Jr Memorial and the National Museum of African American History and Culture owe their very existence to large corporate donations from companies like General Motors And while we can easily make sense of the need for such funding to keep cultural spaces afloat less obvious are the reasons that corporations give to them In Black Culture Inc Patricia A Banks interrogates the notion that such giving is completely altruistic and argues for a deeper understanding of the hidden transactions being conducted that render corporate America dependent on Black culture Drawing on a range of sources such as public relations and advertising texts on corporate cultural patronage and observations at sponsored cultural events Banks argues that Black cultural patronage profits firms by signaling that they value diversity equity and inclusion By functioning in this manner support of Black cultural initiatives affords these companies something called diversity capital an increasingly valuable commodity in today s business landscape While this does not necessarily detract from the social good that cultural patronage does it reveals its secret cost ethnic community support may serve to obscure an otherwise poor track record with social justice Banks deftly weaves innovative theory with detailed observations and a discerning critical gaze at the various agendas infiltrating memorials museums and music festivals meant to celebrate Black culture At a time when accusations of discriminatory practices are met with immediate legal and social condemnation the insights offered here are urgent and necessary *The Arts Festival Work Kit* Dian Magie,1989 **Branding Black Womanhood** Timeka N. **Caste Ideology and Interaction** Dennis B. McGilvray, 1982-09-02 Following the publication of the book by E R Leach ed

Aspects of Caste in South India Ceylon and North West Pakistan 1960 much additional information was gathered on caste hierarchies in South Asia and two major attempts were made to identify the underlying unity of this material a structuralist one by Louis Dumont and a ethnosociological one by McKim Marriott et al This quest for unity seemed attractive yet at the same time as the contributions to the present volume indicate premature The four papers collected here and published in 1982 are all concerned with caste ideology and caste interaction in different locales of South Asia Kyoto's Gion Festival Mark Teeuwen, 2023-01-12 This book focuses on the long history of what is arguably the most prestigious and influential festival in Japan Kyoto's Gion festival It explores this history from the festival's origins in the late 10th century to its post war revival drawing on Japanese historical studies and archival materials as well as the author's participant observation fieldwork Exploring the social and political networks that have kept this festival alive for over a millennium this book reveals how it has endured multiple reinventions In particular it identifies how at each historical juncture different groups have found new purposes for the festival and adapted this costly enterprise to suit their own ends The history of this festival not only sheds light on the development of Japanese festival culture as a whole but also offers a window on Kyoto's history and provides a testing ground for recent festival theory Remapping Brazilian Film Culture in the Twenty-First Century Stephanie Dennison, 2019-10-25 Remapping Brazilian Film Culture makes a significant contribution not only to debates about Brazilian national cinema but more generally about the development of world cinema in the twenty first century This book charts the key features of Brazilian film culture of the first two decades of the twenty first century including the latest cultural debates within Brazil on film funding and distribution practices the impact of diversity politics on the Brazilian film industry the reception and circulation of Brazilian films on the international film festival circuit and the impact on cultural production of the sharp change in political direction at national level experienced post 2016 The principle of remapping here is based on a need to move on from potentially limiting concepts such as the national which can serve to unduly ghettoise a cinema film industry and audience The book argues that Brazilian film culture should be read as being part of a globally articulated film culture whose internal workings are necessarily distinctive and thus deserving of world cinema scholars attention A blend of industry studies audience reception and cultural studies Remapping Brazilian Film Culture is a dynamic volume for students and researchers in film studies particularly Brazilian Latin American and world cinema Honorary Mention Best Book in Humanities for the LASA Brazil Prize 2021 The Trojan Horse Deborah Philips, Garry Whannel, 2013-08-29 The Trojan Horse traces the growth of commercial sponsorship in the public sphere since the 1960s its growing importance for the arts since 1980 and its spread into areas such as education and health The authors central argument is that the image of sponsorship as corporate benevolence has served to routinize and legitimate the presence of commerce within the public sector The central metaphor is of such sponsorship as a Trojan Horse helping to facilitate the hollowing out of the public sector by private agencies and private finance The authors place the study in the context of the more general colonization of

the state by private capital and the challenge posed to the dominance of neo liberal economics by the recent global financial crisis After considering the passage from patronage to sponsorship and outlining the context of the post war public sector since 1945 it analyses sponsorship in relation to Thatcherism enterprise culture and the restructuring of public provision during the 1980s It goes on to examine the New Labour years and the ways in which sponsorship has paved the way for the increased use of private public partnerships and private finance initiatives within the public sector in the UK **Jazz Sells: Music, Marketing, and Meaning** Mark Laver, 2015-02-11 Jazz Sells Music Marketing and Meaning examines the issues of jazz consumption and capitalism through advertising On television on the Internet in radio and in print advertising is a critically important medium for the mass dissemination of music and musical meaning This book is a study of the use of the jazz genre as a musical signifier in promotional efforts exploring how the relationship between brand jazz music and jazz discourses come together to create meaning for the product and the consumer At the same time it examines how jazz offers an invaluable lens through which to examine the complex and often contradictory culture of consumption upon which capitalism is predicated
