reveals for the first time what the surviving schoolbooks from the period actually contain It describes what form a grammar school took in a period from which no school buildings or detailed descriptions survive And it scrutinizes the processes of elementary learning with sufficient care to show that for the grown medieval schoolboy well learned books functioned not only as a touchstone for wisdom but as a knowledge so personal and familiar that it was equivalent to what we would now call experience     **The Athenaeum** ,1909     **Athenaeum and Literary Chronicle** ,1838     Round Table ,1868
