**Evaluation of the First Grade Amharic Text-book in Ethiopia** Tesfaye Kassa, 1984      **Thinking Outside the Box** Eva Poluha, 2016-01-28 This book sets out with the question why Ethiopia a country with one of the oldest still existing state formations in the world and a farming population that has domesticated a number of indigenous food products including coffee oilseeds and Eragrostis teff remains one of the poorest in the world To answer this question the authors review the history of Ethiopia from the earliest centuries A.D. until the 21st century dispelling a number of prevalent myths in the process The book covers topics such as ethnicity a hot issue in today's Ethiopian politics international relations with especially Britain and Italy and the country's lack of technical and economic progress A survey of the current situation in Ethiopia sets the scene for comparisons with other countries An examination of the history of the West illustrates how the autonomy of intellectual inquiry could promote a spiral of knowledge pave the way for the Industrial Revolution and allow western countries to attain the highest standard of living in the world A review of some East Asian countries Japan South Korea and Taiwan exemplifies how they could catch up with the West Against the backdrop of these studies the authors find the basic causes for Ethiopia's poverty to be missed or messed up opportunities to adopt available scientific knowledge and technology Premising that a decent living standard a catch up should be the only reasonable goal also for Ethiopian citizens the authors propose that the country must emphasize promotion of a knowledge and information rather than focusing

numbers of school children and schools and of b entrepreneurship in all economic sectors To boost these requirements successfully the authors argue that all involved in the present development agenda need to think outside the box and reassess at least two common assumptions about Ethiopias future namely that only heavy handed state guidance can bring about rapid development and that peasants and pastoralists are ignorant and must be told what to do The Archaeology of the Jesuit Missions in Ethiopia (1557-1632) Victor M. Fernández,Jorge De Torres,Andreu Martínez d'Alòs-Moner,Carlos Cañete,2017-07-31 One of the earliest and most ambitious projects carried out by the Society of Jesus was the mission to the Christian kingdom of Ethiopia which ran from 1557 to 1632 In about 1621 crucial figures in the Ethiopian Solomonid monarchy including King Susenyos were converted to Catholicism and up to 1632 imposing missionary churches residences and royal structures were built This book studies for the first time in a comprehensive manner the missionary architecture built by the joint work of Jesuit padres Ethiopian and Indian masons and royal Ethiopian patrons The work gives ample archaeological architectonic and historical descriptions of the ten extant sites known to date and includes hypotheses on hitherto unexplored or lesser known structures *Press Digest* ,2000 Ethiopian Publications ,1974
