## **Ets Accessibility Guidelines Educational Testing Service:**

Handbook of Accessible Instruction and Testing Practices Stephen N. Elliott, Ryan J. Kettler, Peter A. Beddow, Alexander Kurz, 2018-03-08 The Second Edition of this handbook provides comprehensive coverage of the concept of accessibility and its application to the design and implementation of instruction and tests with all students. It updates and expands on its original contents and responds to the increasing demand for research based evidence of accessible instruction and testing practices from the professional community. Chapters explore how outcomes are affected when essential features or components of instructional materials and tests are not accessible to any portion of the student population. The handbook addresses the new set of Standards for Educational and Psychological Testing that was published in 2014 as well as requirements for a high level of access for all interim and summative tests by national testing consortiums. In addition, the handbook describes how the Center for Applied Special Technology CAST has continued to advance Universal Design for Learning UDL principles in mainstream education with teachers of all types of students, not just students with disabilities. Topics featured in this text include: A summary of U.S. policies that support inclusive assessment for students with disabilities; An overview of international policies that support inclusive assessments; Designing, developing, and implementing an accessible computer-based national assessment system; Universal Design for Learning UDL principles and the future of assessment; Recent advancements in the accessibility of digitally delivered educational assessments. *The Handbook of Accessible Instruction and Testing Practices* Second Edition is an essential reference for researchers, practitioners, and graduate students in education and allied disciplines including child and school psychology, assessment, testing, and evaluation, social work, and education policy and politics. *The Educational Testing Act of 1981* United States Congress. House. Committee on Education and Labor. Subcommittee on Elementary, Secondary, and Vocational Education, 1982.

Assessment and Access Gary D. Keller, James R. Deneen, Rafael J. Magallan, 1991-12-27 This book treats the major issues of assessment and access as they relate to the Hispanic communities of the United States. For the purpose of increasing Hispanic access to higher education, it explores a variety of developments in educational assessment and test familiarization, both theoretical and practical. There are contributions to this volume from researchers and test specialists from the higher education community and the Educational Testing Service. The book is divided into four parts: an analysis of the major elements and issues that affect Hispanic performance on tests and influence Hispanic access to higher education; a review of several critical elements in test construction as they affect Hispanics; an analysis of the factors related to testing and Hispanic access into the teaching profession; and a research evaluation and historical orientation to the issues involved in the development of a landmark educational product jointly conceived and produced by the College Board, the Educational Testing Service, and the Hispanic Higher Education Coalition. *TestSkills: A Kit for Teachers of Hispanic Students* [Online](#)
