This book is open access under a CC BY 4.0 license. This book provides a unique overview of the impacts of railways on biodiversity, integrating the existing knowledge on the ecological effects of railways on wildlife, identifying major knowledge gaps and research directions, and presenting the emerging field of railway ecology. The book is divided into two major parts. Part one offers a general review of the major conceptual and theoretical principles of railway ecology. The chapters consider the impacts of railways on wildlife populations and concentrate on four major topics: mortality, barrier effects, species invasions, and disturbances ranging from noise to chemical pollution. Part two focuses on a number of case studies from Europe, Asia, and North America, written by an international group of experts.

URBAN Human Factors in Traffic Klaus Bengler, Julia Drücke, Silja Hoffmann, Dietrich Manstetten, Alexandra Neukum, 2017-06-22. The URBAN MV project, funded by the German Federal Ministry for Economic Affairs and Energy (BMWi), focused specifically on the user of future vehicle assistance and information systems. In the case of advanced driver assistance systems for urban areas, the primary emphasis is safety in combination with efficiency and comfort. Research institutes and automotive industry have investigated human vehicle interaction and behaviour of different traffic participants. This book gives a unique and comprehensive insight into the results. Driver assistance and information systems were optimized for use in urban settings. Furthermore, innovative test regimes for controllability testing and new evaluation techniques like networked simulators and virtual reality test beds are described, including statistical methodologies.
