

1 Battery and card

Remove the camera from its housing simply by opening the backdoor. Slide the latch over on the battery door and pop in the battery before closing it. On the side you'll find a memory card compartment – open it up and push your Micro SD card into place.

2 Rehouse It's important that you put the housing back on your camera correctly to ensure it's kept waterproof and safe from dust and debris. So slide the camera back into its housing and close the backdoor by snapping the top latch down firmly.

3 Let's get filming To turn the camera on press the Mode button on the front. If you press it again you'll find the folder of modes, where you can flick between filming and photography modes. When you're ready to record, hit the shutter button and tap it again to stop.

Gleam, 2015-01-06 The GoPro brand of cameras are traditionally known as cameras that are used to capture extreme action video photography. They are compact, rugged, and can be mounted to capture all possible moments from different angles. These cameras have several features that allow the user to capture continuous scenes efficiently in which you can choose which photos or videos you would like to accept or reject. Some moments are special and they should be captured in great quality and with ease. The GoPro cameras allow amateurs to capture the moments and have them looking professional. The content is captured in HD through a wide angle lens which gives the best quality available in the industry. The camera is designed to be user friendly in capturing the videos and photos and making it easy to share moments with friends. **Gopro**
