## **Ican Study Pack Financial Reporting And Ethics:**

TIME MANAGEMENT IN THE LIFE OF A SCHOLAR Kabiru Isa Dandago, 2015-12-05 Time management is a subject that concerns everybody. It is a challenge that has to be faced squarely by everyone who is interested in accomplishing his/her tasks within the limited time available and this time is equally endowed. Good time management is an important factor in getting things done within the available 24-hour period of a day. This book specially targets scholars who should be role models to other people on effective time management and utilization. It is also hoped that the book will stimulate further research on the principles, models, and theories of time management. Although the book has the scholar in mind, other users of time in the various sectors of any economy will also find it useful.

**Accounting Ethics: Crisis in accounting ethics** J. Edward Ketz, 2006 The ruination of investors in Enron, WorldCom, Waste Management, Aldelphia Tyco, and scores of other business concerns has raised questions about the adequacy and relevance of academic research into accounting ethics as well as the ethical nature of professional parties. This research collection includes important papers from key journals and books that reassess theories, research studies, and professional practices in the field of accounting ethics. In addition to examining the current crisis in the creditability of financial reports, many of the papers here work toward developing a body of knowledge that will protect the investing public in the future.
