The Benefits of Shale Gas

By Henry A. Kissinger

As we start to harvest shale gas, we face the hardy skepticism of so many people who distrust the new and praise their traditions.

Shale gas is a very different gas found inside shale rock, which contains throughout the United States "trapped" hydrocarbon molecules that shale gasified, created, and held in place for millions of years. Shale is a natural technology that changed the structure of the gas, giving it a high density of gas, which is not stored in the same way as natural gas. Shale gas is not the same as natural gas, which is stored in the same way as natural gas. Shale gas is not the same as natural gas, which is stored in the same way as natural gas. Shale gas is not the same as natural gas, which is stored in the same way as natural gas.
