## **Makerere University 2015 To 2016 Prospectus:**

**Democracy and the Discourse on Relevance Within the Academic Profession at Makerere University** Kronstad Felde, Tor Halvorsen, 2021-09-20 Democracy and the Discourse on Relevance Within the Academic Profession at Makerere University is set against the backdrop of the spread of neoliberal ideas and reforms since the 1980s While accepting that these ideas are rooted in a longer history the authors reveal how neoliberalism has transformed the university sector and the academic profession In particular they focus on how understandings of what knowledge is relevant and how this is decided have changed Taken as a whole reforms have sought to reorient universities and academics towards economic development in various ways Shifts in how institutions and academics achieve recognition and status combined with the flow of public funds away from the universities and the increasing privatisation of educational services are steadily downgrading the value of public higher education As research universities adopt user and market oriented operating models and prioritise the demands of the corporate sector in their research agendas the sale of intellectual property is increasingly becoming a primary criterion for determining the relevance of academic knowledge All these changes have largely succeeded in transforming the discourse around the role of the academic profession in society In this context Makerere University in Uganda has been lauded as having successfully achieved transformation However far from highlighting the allegedly positive outcomes of this reform this book provides worrying insights into the dissolution of Ugandas academic culture Drawing on interviews with over ninety academics at Makerere University from deans to doctoral students the authors provide first hand accounts of the pressures and problems the reforms have created Disempowered overworked and under resourced many academics are forced to take on consultancy work to make ends meet The evidence presented here stands in stark contrast to the successes claimed by the university However as the authors also show local resistance to the neoliberal model is rising as academics begin to collaborate to regain control over what knowledge is considered relevant and wrestle with deepening democracy The authors careful expos of how neoliberalism devalues academic knowledge and the urgency of countering this trend makes Democracy and the Discourse on Relevance Within the Academic Profession at Makerere University highly relevant for anyone working in higher education or involved in shaping policy for this sector

*Christian Education in Tansania* Lukas Steinbeck, 2018-12-03 Lukas Steinbeck widmet sich der tansanischen Christian Education und berf hrt den gro enteils m ndlich bestimmten Fachdiskurs in eine schriftliche Rekonstruktion Er ber cksichtigt dabei sowohl die historische als auch gegenw rtige Perspektive mithilfe einer missionskatechetischen Aufarbeitung und aktuellen Bestandsaufnahme des Faches Herzst ck der Untersuchung sind die im Rahmen empirischer Forschung entstandenen werkbiographischen Miniaturen in denen sechs tansanische Religionsp dagogen die Christian Education aus pers nlicher Perspektive entfalten Auf Basis dieser Erkenntnisse wird Christian Education als tansanischer Gespr chspartner in den interkulturellen Diskurs der vergleichenden Religionsp dagogik einbezogen Lukas Steinbeck analyses the Christian

Education in Tanzania and thus transforms most of the oral discourse into a written analysis. He considers not only the historical but also the contemporary perspective with the help of a mission and catechesis oriented debate and recent approaches on the subject. The core of the analysis are work biographical miniatures developed in the context of an empirical survey in which six Tanzanian religious education teachers point out their view on Christian Education. On the basis of these results Christian Education can be included as a Tanzanian dialogue partner in the intercultural discourse of a comparative Religious education.

*Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities* Bosch, Chantelle, Laubscher, Dorothy Joy, Kyei-Blankson, Lydia, 2021-05-14. Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID 19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning, as opposed to fully online learning or traditional face to face teaching, has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full time study as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had. *Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities* shares how institutions in the developing world and less privileged communities have reimagined and restructured blended education to enhance teaching and learning for underprivileged communities. This book aims to address blended learning solutions across institutional, program, course and activity levels. The chapters will cover a variety of learning environments from rural settings to less developed countries and more and explore the programs and courses designed to improve student success and accessibility in diverse student populations. This book is ideally intended for teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians and students who are interested in blended learning opportunities in less privileged settings and to underserved and marginalized populations.

*Postgraduate Research Engagement in Low Resource Settings* Atibuni, Dennis Zami, 2019-09-27. The general academic progression and particularly research engagement of postgraduate students is characterized by various problems such as high dropout rates, longer completion times, low graduation rates and high repetition or retake rates. This means that there are far fewer students pursuing postgraduate studies at tertiary institutions and universities than there are at the lower levels of education. Yet there is growing demand for postgraduate education given its strong projected association with socioeconomic transformation at national and international levels among developed and developing countries alike. *Postgraduate Research Engagement in Low Resource Settings* sets out to garner strategies for fostering efficiency of

research conduct among the students and faculty so as to enhance high quality output for the envisaged personal societal national and international socioeconomic transformation Covering a range of topics such as intellectual property mental health and quality assurance this book is ideal for research supervisors higher education faculty librarians educators administrators researchers academicians and students     **Prospectus** University of Notre Dame.
