Janet Kear

Man And Wildfowl Janet Kear:

Man and Wildfowl Janet Kear, 2010-11-30 The involvement of humans with ducks geese and swans has probably been closer than with any other group of birds today and for several millenia past This involvement in its many aspects is the theme of this compelling and readable account by an Assistant Director of the Wildfowl and Wetlands Trust Dr Kear ranges widely from a summary of the taxonomy and natural history of wildfowl through a history of domestication world wide to wildfowling decoys conservation and captive breeding conflicts with agriculture and wildfowl in legend and literature Throughout the text abounds with little known facts and insights to intrigue the general reader and expert alike a reflection of the author s wide reading and affection for her subject Jacket illustrations by Joe Blossom *Ducks, Geese and Swans: Species accounts (Cairina to Mergus)* Janet Kear, 2005 The Barnacle Goose Jeffrey M. Black, Jølle Prop, Kjell Larsson, 2014-10-23 The Barnacle Goose a distinctive handsome black and white bird gets its name from a mediaeval myth that the birds hatched from barnacles how else to explain their sudden appearance each autumn in northern Britain We now know of course that the birds migrate from Arctic Russia Norway and Svalbard to winter throughout northern Europe This book represents a culmination of more than 25 years of Barnacle Goose research It represents the story of one of Europe s most celebrated long term behavioral studies detailing the lives of these social and sociable birds Chapters include sections on pair formation and bonding family and population dynamics brood parasitism food and feeding size and shape in different populations life cycle survivorship dispersal migration and conservation with particular regard to climate change It is a rigorous and thorough examination of the lives of these birds in fine Poyser tradition *Swans of the World* Alice L. Price, 1994 Fully illustrated with swans of legend art nature and the imagination *Swans of the World* is a treasury and a treasure as well **The Condor** , 1991 **A History of Livestock and Wildlife** Eric Jones, 2023-08-01 The use of wildlife products together with advances in livestock feeding were essential in propelling Western economic growth Extraordinarily these early modern and early industrial features are side lined relative to the role of manufacturing This book restores the balance detailing how many species were relocated around the world and how late natural products persisted into the age of synthetics This text describes how animals were driven immense distances to market and harnessed for transportation and to power machines even after industrialisation animals were employed for innumerable purposes besides being co opted as pets The recent rebound from a wholesale persecution of wild nature and how the plundering of the animal kingdom and the development of livestock farming jointly created the Smithian Growth that ushered in the Industrial Revolution are also described *American Pheasant and Waterfowl Society Magazine* American Pheasant and Waterfowl Society, 1991

Ducks, Geese, and Swans Janet Kear, 2005 Wildfowl and screamers belong to a highly diverse family of birds confined to watery habitats **Annual Report 1975** , American Pheasant and Waterfowl Society Magazine , 1991 The Pig Who Sang to the Moon Jeffrey Moussaieff Masson, 2007-12-18 Jeffrey Moussaieff Masson s groundbreaking bestseller When

Elephants Weep was the first book since Darwin's time to explore emotions in the animal kingdom particularly from animals in the wild. Now he focuses exclusively on the contained world of the farm animal, revealing startling irrefutable evidence that barnyard creatures have feelings too, even consciousness. Weaving history, literature, anecdotes, scientific studies, and Masson's own vivid experiences observing pigs, cows, sheep, goats, and chickens over the course of five years, this important book at last gives voice, meaning, and dignity to these gentle beasts that are bred to be milked, shorn, butchered, and eaten. Can we ever know what makes an animal happy? Many animal behaviorists say no. But Jeffrey Masson has a different view. An animal is happy if it can live according to its own nature. Farm animals suffer greatly in this regard. Chickens, for instance, like to perch in trees at night to avoid predators and to nestle with friends. The obvious conclusion: They cannot be happy when confined twenty to a cage. From field and barn to pen and coop, Masson bears witness to the emotions and intelligence of these remarkable farm animals, each unique with distinct qualities. Curious, intelligent, self-reliant, many will find it hard to believe that these attributes describe a pig. In fact, there is much that humans share with pigs. They dream, know their names, and can see colors. Mother cows mourn the loss of their calves when their babies are taken away to slaughter. Given a choice between food that is nutritious or lacking in minerals, sheep will select the former, balancing their diet and correcting the deficiency. Goats display quite a sense of humor, dignity, and fearlessness. Indian goats have been known to kill leopards. Chickens are naturally sociable; they will gather around a human companion and stand there serenely preening themselves or sit quietly on the ground beside someone they trust. For far too long, farm animals have been denigrated and treated merely as creatures of instinct rather than as sentient beings. Shattering the abhorrent myth of the dumb animal without feelings, Jeffrey Masson has written a revolutionary book that is sure to stir human emotions far and wide. **British Birds**, 1993

The Wood Duck and the Mandarin Lawton L. Shurtleff, Christopher Savage, 1996-11-11. This is a story of conservation told through the natural histories of two of the world's most fascinating birds: the Wood Duck of North America and the Mandarin of Asia. The only two species in their genus, *Aix*, these Northern Wood Ducks are native to different continents but have long been kept together in captivity. Now, for the first time in history, they are also flying side by side in the wild in a small area of northern California. This rare circumstance has given Lawton L. Shurtleff and Christopher Savage the opportunity to observe the Northern Wood Ducks' close relationship and is the starting point of this informative and beautifully rendered book. The opening chapters tell how the Wood Duck and the Mandarin came to inhabit the Pacific Flyway and explain their extraordinary similarities. Subsequent chapters discuss the distinctive histories of the two species and describe the birds throughout the seasons in their native flyways. The Mandarins' place in Asian art and literature is the subject of Chapter Five. The final chapter illuminates the successful work done to protect the North American Wood Duck, which has made a remarkable recovery from near extinction, and the beginning efforts to protect the Mandarin, whose existence in East Asia is seriously threatened. Stunning full-color photographs by renowned wildlife photographers, along with photographs by the

authors capture the exquisite beauty of these much revered birds Detailed maps show the Wood Ducks territory in North America and the Mandarins territory in East Asia and Great Britain Three appendices plans for building nestboxes instructions for banding birds and lists of books and conservation organizations and a thorough index are valuable resources in a book that will delight bird lovers and general readers alike *Duck* Victoria de Rijke,2008-12-15 The squat noisy duck occupies a prominent role in the human cultural imagination as evidenced by everything from the rubber duck of childhood baths to insurance commercials With *Duck* Victoria de Rijke explores the universality of this quacking bird through the course of human culture and history From the Eider duck to the Brazilian teal to the familiar mallard duck species are richly diverse and de Rijke offers a comprehensive overview of their evolutionary history She explores the numerous roles that the duck plays in literature art and religion including the Hebrew belief that ducks represent immortality and the Finnish myth that the universe was hatched from a duck s egg The author also highlights the significant role humor has always played in human imaginings of duck life such as the *Topographia Hibernia* a twelfth century tome contending that ducks originated as growths on tree trunks washed up on a beach But the book does not neglect the bird s role in everyday life as well from food dishes to jokes to beloved animated characters such as Daffy Duck and Donald Duck *Duck* is an entertaining account of a bird whose distinctive silhouette is known the world over

Moral Entanglements Stefan Bargheer,2018-04-05 At the center of Stefan Bargheer s account of bird watching field ornithology and nature conservation in Britain and Germany stands the question of how values change over time and how individuals develop moral commitments Using life history data derived from written narratives and oral histories *Moral Entanglements* follows the development of conservation from the point in time at which the greatest declines in bird life took place to the current efforts in large scale biodiversity conservation and environmental policy within the European Union While often depicted as the outcome of an environmental revolution that has taken place since the 1960s Bargheer demonstrates to the contrary that the relevant practices and institutions that shape contemporary conservation have evolved gradually since the early nineteenth century *Moral Entanglements* further shows that the practices and institutions in which bird conservation is entangled differ between the two countries In Britain birds derived their meaning in the context of the game of bird watching as a leisure activity Here birds are now as then the most popular and best protected taxonomic group of wildlife due to their particularly suitable status as toys in a collecting game turning nature into a playground In Germany by contrast birds were initially part of the world of work They were protected as useful economic tools rendering services of ecological pest control in a system of agricultural production modeled after the factory shop floor Based on this extensive analysis Bargheer formulates a sociology of morality informed by a pragmatist theory of value

They Do What? Javier A. Galván,2014-06-19 This single volume work covers many traditions customs and activities Westerners may find unusual or shocking covering everything from the Ashanti people s funeral celebrations to wife carrying competitions in Finland In Maharashtra India a tradition exists to throw newborn babies off the tops of

buildings At the Vegetarian Festival in Phuket Thailand some people ritualistically pierce their cheeks and faces with swords and knives How did these surprising customs come to be From camel wrestling to cheese rolling competitions to a tomato throwing festival this fascinating single volume encyclopedia examines more than 100 customs traditions and rituals that may be considered strange and exotic to U S readers This work provides high school and undergraduate students with a compelling and fascinating exploration of world customs and traditions Comprising entries by anthropologists religious leaders scholars dancers musicians historians and artists from almost every continent in the world this encyclopedia provides readers a truly global and multidisciplinary perspective The entries explore the origins of the custom explain how it was established as a tradition and describe how and where it is practiced A thematic guide enables readers to look up entries by the type of tradition or custom such as birth coming of age courtship and wedding funeral daily customs holidays and festivals
