Building Construction Illustrated Francis D. K. Ching,2014-02-17 The classic visual guide to the basics of building construction now with a 3D digital building model for interactive learning For over three decades Building Construction Illustrated has offered an outstanding introduction to the principles of building construction This new edition of the revered classic remains as relevant as ever providing the latest information in Francis D K Ching s signature style Its rich and comprehensive approach clearly presents all of the basic concepts underlying building construction New to this edition are digital enhancements delivered as an online companion to the print edition and also embedded in e book editions Features include a 3D model showing how building components come together in a final project illustrated throughout with clear and accurate drawings that present the state of the art in construction processes and materials Updated and revised to include the latest knowledge on sustainability incorporation of building systems and use of new materials Contains archetypal drawings that offer clear inspiration for designers and drafters Reflects the 2012 International Building Codes and 2012 LEED system This new edition of Building Construction Illustrated remains as relevant as ever with the most current knowledge presented in a rich and comprehensive manner that does not disappoint *Managing Natural Resources for Development in Africa* Washington Odongo Ochola,P. C. Sanginga,Isaac Bekalo,2010 The complex and dynamic interlinks between natural resource management NRM and development have long been recognized by national and international research and development organizations and have generated voluminous literature However much of what is available in the form of university course books practical learning manuals and reference materials in NRM is based on experiences from outside Africa *Managing Natural Resources for Development in Africa* A Resource Book provides an understanding of the various levels at which NRM issues occur and are being addressed scientifically economically socially and politically The book s nine chapters present state of the art perspectives within a holistic African context The book systematically navigates the tricky landscape of integrated NRM with special reference to Eastern and Southern Africa against the backdrop of prevailing local national regional and global social economic and environmental challenges The authors wide experience the rich references made to emerging challenges and opportunities and the presentation of different tools principles approaches case studies and processes make the book a rich and valuable one stop resource for postgraduate students researchers policymakers and NRM practitioners The book is designed to help the reader grasp in depth NRM perspectives and presents innovative guidance for research design and problem solving including review questions learning activities and recommended further reading The book was developed through a writeshop process by a multi disciplinary team of lecturers

from the University of Nairobi Egerton University Kenyatta University the University of Zimbabwe the University of Malawi Makerere University and the University of Dar es Salam In addition selected NRM experts from regional and international research organizations including the World Agroforestry Center ICRAF the Africa Forest Forum RUFORUM IIRR and the International Development Research Centre IDRC participated in the writeshop and contributed material to the book
