Full Year Concepts

SEMESTER 1 CONTENT

Technological Determinism I: Focus on Media's Effects

The 'Medium is the Message'

Medium: plural of media, something in between, forms of expression, something intermediate (ex. behaviour)

Message: all media work over us entirely. They are so persuasive in their personal, political, economic, etc consequences, that they leave no part of us untouched, unaffected, unaltered. Change in media – change in society (change on the individual)

The medium is the message (focus on media effects)

- The message is the change of scale or pace or pattern that it introduces human affairs
- We usually notice the message (symbols) not the media itself

'The Gadget Lover'

Shock, trauma, numbness (cognitive overload)

When a new technology enters our system, we go numb to everything else

Ex. Myth of Narcissus

- Mistook his reflection to someone else and fell in love with it
- Was so taken with (overwhelmed) his reflection that he was numb to everything else
- This is where the word narcosis comes from – a state of stupor
- He adapted to his extension of himself (that technology) and became a closed system
- The central nervous system acts to protect itself through amputation or isolation (brain is in cognitive overload so you amputate your other senses to focus on one thing)
 - Ex. Battle shock – shock induces a generalized numbness
 - Ex. The numbing effect that technology has on its users
- tech – NUMBING EFFECT on society
 - Ex. social media works to keep users scrolling for as long as possible

Technological Determinism II: Media Ages

Media translates other media

- Writing translates inner thought
- Phone translates telephones into calls, letters into email, television into Netflix, etc.

Mit Finance Final Exam:

Banking's Final Exam Morris Goldstein, 2017-05-30 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009 stress testing of large financial institutions has become the cornerstone of banking supervision worldwide The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable In Banking's Final Exam one of the world's leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses leading to a false sense of reassurance about the safety and soundness of the banking system Some weaknesses can be corrected within the existing bank capital regime but others will require bold reforms including higher minimum capital requirements for the largest and most systemically important banks The banking industry is likely to resist these reforms but this book explains why their objections do not hold water *The Bankers' New Clothes* Anat Admati, Martin Hellwig, 2024-01-09 A Wall Street Journal Financial Times and Bloomberg Businessweek Book of the Year Why our banking system is broken and what we must do to fix it New bank failures have been a rude awakening for everyone who believed that the banking industry was reformed after the Global Financial Crisis and that we'd never again have to choose between massive bailouts and financial havoc *The Bankers' New Clothes* uncovers just how little things have changed and why banks are still so dangerous Writing in clear language that anyone can understand Anat Admati and Martin Hellwig debunk the false and misleading claims of bankers regulators politicians academics and others who oppose effective reform and they explain how the banking system can be made safer and healthier Thoroughly updated for a world where bank failures have made a dramatic return this acclaimed and important book now features a new preface and four new chapters that expose the shortcomings of current policies and reveal how the dominance of banking even presents dangers to the rule of law and democracy itself **The 2004 Guide to the Evaluation of Educational Experiences in the Armed Services** American Council on Education, American Council on Education Staff, 2004 For more than a half century the Guide to the Evaluation of Educational Experiences in the Armed Services has been the standard reference work for recognizing learning acquired in military life Since 1942 ACE and has worked cooperatively with the US Department of Defense the Armed Services and the US Coast Guard in helping hundreds of thousands of individuals earn academic credit for learning achieved while serving their country **Agri Finance**, 1990 *Media and Digital Management* Eli M. Noam, 2019-01-23 Being a successful manager or entrepreneur in the media and digital sector requires creativity innovation and performance It also requires an understanding of the principles and tools of management Aimed at the college market this book is a short foundational volume on media management It summarizes the major dimensions of a business school curriculum and applies them to the entire media media tech and digital sector Its chapters cover in a jargonless non technical way the major functions of management First creating a media product the financing of projects and the management of technology HR

production operations intellectual assets and government relations Second harvesting the product created market research marketing pricing and distribution And third the control loop media accounting and strategy planning In the process this book becomes an indispensable resource for those aiming for a career in the media and digital field both in startups and established organizations This book is designed to help those aiming to join the media and digital sector to become creative managers and managerial creatives It aims to make them more knowledgeable less blinded by hype more effective and more responsible
