Dochy, 2012-12-06 Achievement assessment has undergone a major shift from what some call a culture of testing to a culture of assessment Nowadays a strong emphasis is placed on the integration of assessment and instruction on assessing processes rather than just products and on evaluating individual progress relative to each student's starting point This book addresses assessment issues in light of the present state of affairs The first part discusses new alternatives in the assessment of achievement in various subject areas focusing on agenda practice impact and evaluation of the assessment The second part deals with issues related to assessment of the learning process specifically questions concerning the assessment of individual differences in prior knowledge learning skills and strategies *Mapping Biology Knowledge* K.
