This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust *Novels for Students* for all of your research needs. Walter Dean Myers Mary Ellen Snodgrass, 2015-01-24 Walter Dean Myers, preeminent author of teen fiction, biography, and verse, refines the image of black characters that are frequently trivialized or vilified in juvenile literature, advertising, television, and film. From his saga *The Glory Field* to his novel *The Young Landlords*, Myers's canon surveys the complex realm of the teen years as colliding settings in home, school, and the street. This volume introduces readers to both the writer and his work with an emphasis on the characters, dates, events, motifs, and themes from the books. Myers's 101 A to Z entries offer concise analytical discussion on all topics and include generous citations from primary and secondary sources. Each entry concludes with a selected bibliography on such subjects as segregation, Malcolm X, urbanism, writing, metafiction, drugs, and alcohol, slavery, and the Vietnam War. Appendices offer a timeline of historical events in Myers's writings and forty topics for group or individual projects, oral analysis, background material, and theme development. A map of Harlem, where many of the stories are set, genealogical diagrams for characters, and an author chronology contribute to a comprehensive presentation. *Igniting Social Action in the ELA Classroom* Robyn Seglem, Sarah Bonner, 2022 This practical book provides teachers with step-by-step guidance for developing a class culture that welcomes curiosity and ignites social action. Student-driven inquiry has a lasting impact on learning, yet questions posed from students' own contexts rarely serve to shape their understanding of the outside world. The authors show teachers how to use literature to introduce characters and worlds that exist outside of their students' lived experiences. Through this exposure, students can develop questions that seek to build empathy for others, which ultimately positions young people to be change agents in their communities and in the larger world. This book translates ideas from theorists in critical literacy, student motivation, and culturally responsive pedagogy into practical approaches for the English language arts and social studies classroom. 6-12 Each chapter poses questions designed to get teachers thinking about how to use mind-opening texts with students to address social problems. **Book Features** Shows teachers how to use literature to help students navigate a shifting world. Equips students with the skills to advocate for themselves and others, including using digital tools in meaningful, effective ways. Asks students to face controversial points of view head-on and interrogate the world in which they live. Includes
