Air Travel Mark Gerchick,2013-06-10 Sit back relax and enjoy the flight our pilots still intone But who are they kidding
 Former FAA chief counsel and senior aviation policy official Mark Gerchick unravels the unseen forces and little known facts
 that have reshaped our air travel experience since September 11 2001 With wry humor and unique insight Gerchick takes us
 past the jargon technicalities and all is well platitudes to expose the new normal of air travel from the packed planes and
 myriad hassles of everyday flying to the alchemy of air fares the airlines endless nickel and diming and the elusive hope of
 escape from steerage We find out what pilots do in the cockpit what s really worth worrying about when it comes to airline

safety and why we get sick on planes Meanwhile Gerchick ponders the jarring disconnect between our quaint expectations of service with a smile and the grim reality of cramped seats no free lunch and watch yer knees With sympathy for both fliers and airlines Gerchick shows how the new business all business airline industry has finally learned to make money even in the face of crushing fuel costs and get millions of travelers where they re going every day safely and quickly From his singular vantage point as former aviation regulator and policymaker Gerchick gives us a straightforward insider s view of how hard it is for government to improve the traveler s lot by explaining the vagaries of consumer protection rules as well as the political realities and the economic forces at work While Gerchick offers reasons to hope for a better future in air travel he presents an unvarnished look at what we can expect good and bad when we take to the skies Some of it will reassure you some will make you cringe but all will open your eyes to what it means to fly today **Aircraft Command in Emergency Situations**
