Epileptic Graphic Novel:

Epileptic David B.,2005 With stunning black and white illustrations a noted cartoonist chronicles growing up with an epileptic older brother The author charts his complicated relationship with his brother from childhood to adulthood and the effects of the illness on the entire family *The Cambridge Companion to the Graphic Novel* Stephen E.

Tabachnick,2017-07-03 This Companion examines the evolution of comic books into graphic novels and the development of this art form globally *Graphic Novels as Pedagogy in Social Studies* Angelo J. Letizia,2020-04-27 This book examines the

study of citizenship by means of reading and creating graphic novels and comics in the social studies classroom The author argues that utilizing graphic novels in the classroom not only helps to teach important concepts skills and dispositions of the social studies but can also empower students with the means to grapple with the complexities of our current times From the primary school classroom through high school and beyond graphic novels provide a rich platform to explore a diverse array of issues such as history critical geography gender race and ethnicity disability leadership feminism sexual identity philosophy and social justice issues as well as provide a multidisciplinary lens for discourse on citizenship Cultivating multimodal literacy skills through graphic novels allows students and instructors to conceive of and practice citizenship in new unforeseen ways in an era where truth is in question To drive this point forward the author includes examples of both his own and his students work along with exercises to be used in social studies classrooms **The Cambridge History of the**

Graphic Novel Jan Baetens,Hugo Frey,Stephen E. Tabachnick,2018-07-19 The Cambridge History of the Graphic Novel provides the complete history of the graphic novel from its origins in the nineteenth century to its rise and startling success in the twentieth and twenty first century It includes original discussion on the current state of the graphic novel and analyzes how American European Middle Eastern and Japanese renditions have shaped the field Thirty five leading scholars and historians unpack both forgotten trajectories as well as the famous key episodes and explain how comics transitioned from being marketed as children s entertainment Essays address the masters of the form including Art Spiegelman Alan Moore and Marjane Satrapi and reflect on their publishing history as well as their social and political effects This ambitious history offers an extensive detailed and expansive scholarly account of the graphic novel and will be a key resource for scholars and students **Comics and Graphic Novels** Richard Spilsbury,2006-10-12 This book looks at the exciting world of comics and graphic novels This book will help students discover and understand the world of story telling art and inspire them to create their own art

Alternative Comics Charles Hatfield, 2009-11-12 In the 1980s a sea change occurred in comics Fueled by Art Spiegelman and Francoise Mouly's avant garde anthology *Raw* and the launch of the *Love Rockets* series by Gilbert Jaime and Mario Hernandez the decade saw a deluge of comics that were more autobiographical emotionally realistic and experimental than anything seen before These alternative comics were not the scatological satires of the 1960s underground nor were they brightly colored newspaper strips or superhero comic books In *Alternative Comics: An Emerging Literature* Charles Hatfield establishes the parameters of alternative comics by closely examining long form comics in particular the graphic novel He argues that these are fundamentally a literary form and offers an extensive critical study of them both as a literary genre and as a cultural phenomenon Combining sharp eyed readings and illustrations from particular texts with a larger understanding of the comics as an art form this book discusses the development of specific genres such as autobiography and history *Alternative Comics* analyzes such seminal works as Spiegelman's *Maus* Gilbert Hernandez's *Palomar* *The Heartbreak Soup Stories* and Justin Green's *Binky Brown Meets the Holy Virgin Mary* Hatfield explores how issues outside of cartooning the marketplace production demands work schedules can affect the final work Using Hernandez's *Palomar* as an example he shows how serialization may determine the way a cartoonist structures a narrative In a close look at *Maus* *Binky Brown* and Harvey Pekar's *American Splendor* Hatfield teases out the complications of creating biography and autobiography in a substantially visual medium and shows how creators approach these issues in radically different ways

The Comics Form Chris Gavalier, 2022-06-16 Answering foundational questions like what is a comic and how do comics work in original and imaginative ways this book adapts established formalist approaches to explaining the experience of reading comics Taking stock of a multitude of case studies and examples *The Comics Form* demonstrates that any object can be read as a comic so long as it displays a set of relevant formal features Drawing from the worlds of art criticism and literary studies to put forward innovative new ways of thinking and talking about comics this book challenges certain terminology and such theorizing terms as narrate which have historically been employed somewhat loosely In unpacking the way in which sequenced images work *The Comics Form* introduces tools of analysis such as discourse and diegesis details further qualities of visual representation such as resemblance custom norms style simplification exaggeration style modes transparency and specification perspective and framing focalization and ocularization and applies formal art analysis to comics images This book also examines the conclusions readers draw from

the way certain images are presented and what they trigger and offers clear definitions of the roles and features of text narrators image narrators and image text narrators in both non linguistic images and word images

Reading Graphic Novels Achim Hescher, 2016-02-22 Distinguishing the graphic novel from other types of comic books has presented problems due to the fuzziness of category boundaries Against the backdrop of prototype theory the author establishes the graphic novel as a genre whose core feature is complexity which again is defined by seven gradable subcategories 1 multilayered plot and narration 2 multireferential use of color 3 complex text image relation 4 meaning enhancing panel design and layout 5 structural performativity 6 references to texts media and 7 self referential and metafictional devices Regarding the subcategory of narration the existence of a narrator as known from classical narratology can no longer be assumed In addition conventional focalization cannot account for two crucial parameters of the comics image what is shown point of view including mise en scene and what is seen character perception On the basis of Francois Jost's concepts of ocularization and focalization this book presents an analytical framework for graphic novels beyond conventional narratology and finally discusses aspects of subjectivity a focal paradigm in the latest research It is intended for advanced students of literature scholars and comics experts

Autobiographical Comics and Graphic Novels Mathijs Peters, Yasco Horsman, 2025-10-01 This book offers philosophical and psychoanalytical reflections on the selfhood shaped in autobiographical graphic narratives or autographics These reflections revolve around the autographic gesture This gesture refers to firstly the leaving of graphic traces of an embodied self which secondly transform into a drawn figure that represents this self and acquires a certain autonomy as a character and which thirdly are embedded in a narrative that tells all or part of this self's life story By combining the semiotic logics of trace image and narrative the book argues autographics perform this gesture and shape a specific form of selfhood The book studies this process by turning to theories about selfhood constructed primarily within the following three intellectual traditions existential hermeneutics as developed by Paul Ricoeur existential phenomenology as embodied by Jean Paul Sartre and psychoanalysis through the lenses of Jacques Lacan Marion Milner and Donald Winnicott The ideas of these authors as well as Paul de Man's and Johann Gottlieb Fichte's analyses of subject constitution are brought into dialogue with autobiographical graphic narratives by Zoe Thorogood Katie Green Peter Pontiac Alison Bechdel Yoshihiro Tatsumi Marjane Satrapi Riad Sattouf Keiji Nakazawa Lynda Barry and others
