La moda come motore economico: innovazione di processo e prodotto, nuove strategie commerciali, comportamento dei consumatori / Fashion as an economic engine: process and product innovation, commercial strategies, consumer behavior

Giampiero Nigro,2022-05-03 The study of the textile sector has always been central to economic history from reconstructions of the dynamic growth in the medieval wool industry to the rise of silk and light and mixed fabrics in the modern era to the driving role of cotton in the industrialisation process Although the dynamics of textile manufacturing are closely linked to the transformations of fashion economic history has long neglected its role as a factor in economic change treating it primarily as a kind of exogenous catalyst This book makes a decisive contribution to the understanding of a fundamental transformation the consequences of which are projected into contemporary society but which matured in pre industrial times the advent of fashion      *Max Jacob and the Poetics of Play* Anna J. Davies,2011 Max Jacob central figure of early 20th century Parisian bohemia along with Picasso and Apollinaire was active at the emergence of Fauvism Cubism Futurism Dada and Surrealism But in spite of his close connections with modernism epitomized by his seminal book of prose poems *Le Cornet à des* 1916 Jacob remains a marginal figure His Breton Jewish otherness conversion to Catholicism and death under the Nazis in 1944 adds to the enigma and shifts the critical focus further still But Jacobs poetic playfulness his many faceted irony wordplay narrative heterogeneity tragic comedy self reflexivity and polyphony may begin to offer insights into his esprit createur which true to the post modernist vision is not to be found in the usual ways For the aim of Max Jacob connoisseur of traditional storytelling as well as spearhead of the literary vanguard is to jolt the unconscious the energetic kernel of creativity      **Year**
