Ann El Khoury,2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and  
commonalities between communities and movements such as Occupy the World Social Forum and alternative economies  
Globalization Development and Social Justice advances the proposition that another globalization is not only possible but  
already exists It demonstrates that there are multiple pathways towards development with social justice and argues that  
enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal  
globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of  
global and local processes The book features case studies and examples of diverse economic practice and innovative  
emergent political forms from the Global South and North These case studies are located in the informal social economy and  
community development as well as everyday practices from prefigurative politics to community cooperatives and  
participatory planning This book makes an important contribution to debates about the prospects for and practices of a  
transformative grassroots globalization and to critical debates about globalization and development strategies It will be of
