The Education Invasion Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers

answers and remedies *Executive Function and Education* Mariëtte Huizinga,Dieter Baeyens,Jacob A. Burack,2018-09-21
 Executive function is an umbrella term for various cognitive processes that are central to goal directed behavior thoughts and emotions These processes are especially important in novel or demanding situations which require a rapid and flexible adjustment of behavior to the changing demands of the environment The development of executive function relies on the maturation of associated brain regions as well as on stimulation in the child s social contexts especially the home and school Over the past decade the term executive function has become a buzzword in the field of education as both researchers and educators underscore the importance of skills like goal setting planning and organizing in academic success Accordingly in initiating this Research Topic and eBook our goal was to provide a forum for state of the art theoretical and empirical work on this that both facilitates communication among researchers from diverse fields and provides a theoretically sound source of information for educators The contributors to this volume who hail from several different countries in Europe and North America have certainly accomplished this goal in their nuanced and cutting edge depictions of the complex links among various executive function components and educational success South African national bibliography ,1999 Classified list with author and title index *The ^APragmatist* Joseph P. This unique work by the Centre for Conflict Resolution CCR Cape Town, South Africa, tracks the progress Africa has made in achieving the United Nations Millennium Development Goals (MDGs) since 2000. Thirteen analytical chapters, written by scholars and practitioners with expertise in the various areas covered by the eight MDGs, are organized around the larger themes of political economy, structural issues, sustainable goals, and human development goals. They critically assess the progress that Africa has made towards the achievement of the MDGs, discuss how to accelerate that progress, and offer alternatives and recommendations in support of institutions in Africa that are engaged in promoting the achievement of sustainable development. Throughout, they examine the role of various actors, including the African Union, Africa's regional economic communities, the United Nations, the European Union, etc., civil society, and other external development partners, in light of their contributions, shortfalls, and viable options in shaping the continent's development agenda. Together, they provide a unique assessment from experts on the ground of whether the goals were a success and
