*Health Matters* Eric Mykhalovskiy, Jacqueline Choiniere, Pat Armstrong, Hugh Armstrong, 2020-05-12 In *Health Matters* contributors from a range of disciplinary and interdisciplinary traditions address multiple dimensions of health care such as nursing midwifery home care pharmaceuticals medical education and palliative care Through their explorations the book poses questions about the role that the forms of expertise associated with evidence based health care play in shaping how we understand and organize health services Authors critique instrumental managerial ways of knowing health care and focus on how such ways of knowing limit our understandings of and responses to health care problems and are linked with the growing commodification individualization and privatization of Canadian health services Working with analytic perspectives such as feminism Marxist political economy critical ethnography science and technology studies governmentality studies and institutional ethnography the volume demonstrates how critical social science perspectives contribute alternative perspectives about what counts as health care problems and how to best to address them **An Age of Accountability**

John L. Rury, 2023-10-13 *An Age of Accountability* highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree *U.S. Power and the Social State in Brazil* Júlio Cattai, 2021-12-29 The book analyzes the elite led efforts to transform the Brazilian legal order in the period between 1930 1975 and how U S Power played a major role in such a process Besides the global circulation of ideas the book discusses the Brazilian institutional development in the period A profound Crisis of Civilization marked the first decades of the century the references of space and time vanished with the vertiginous expansion of cities and industries

while a myriad of immigrants and former slaves were alleged to be threatening the country's traditions Brazilian elites blamed liberalism for such a Crisis Based on a decade of research this book centralizes Brazilian history in liberalism and offers a genealogy of the jurisprudential and institutional struggles to correct the culture of laissez faire Using archival sources it shows the direct U S influence on Brazilian thought and development Recasting the history of legal ideas in the 20th century and providing novel interpretations on major political processes it offers a rigorous and fresh look at the development of liberalism in the country Covering five decades of history and offering a transnational approach involving the U S hegemonic role in Brazil this book will be of interest to scholars and students of law U S foreign policy area studies and international relations

**The Schenley Experiment** Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools

**The Big Con** Nate Hendley, 2016-09-06 This book examines a broad range of infamous scams cons swindles and hoaxes throughout American history and considers why human gullibility continues in an age of easy access to information Covering American cons and hoaxes past and present including the Great Moon Hoax of 1835 the controversy over subliminal messaging do bands filmmakers and advertisers really put secret messages in their works the panic about satanic daycare operators in the 1980s and recent Internet scams this book provides a fascinating fact based look at infamous frauds across the centuries Offering an engaging mix of history sociology and psychology author Nate Hendley gives readers an appreciation of how prominent scams cons confidence men and hoaxes have impacted American society past and present Each entry details the scheme or hoax and the pertinent con artist schemer involved examining the sociological cultural political and or economic

effect of the scams Each topic is accompanied by a short bibliography of further reading selections As the old saying goes There is a sucker born every minute and there has always been a keen eyed swindler to take advantage of the situation The Big Con Great Hoaxes Frauds Gifts and Swindles in American History explores this sordid underbelly of American civilization and invites readers to revel in the felonious experience      **Sharing Nuclear Secrets** John Baylis,Anthony Eames,2023-06-01 Nuclear alliances are high stakes partnerships with the potential to enhance security goodwill scientific and technical innovation and economic well being or they risk a state s very existence generate social and political unrest and fracture frameworks for international cooperation and jeopardize global reputations Now entering its eighth decade the Anglo American nuclear alliance is the oldest and most complex in the world Sharing Nuclear Secrets is the first comprehensive single volume study of the Anglo American nuclear relationship illuminating both its fragility and durability It has waxed and waned based on the preferences of presidents and prime ministers weathered war scares overcome isolationist impulses and imperial decline persisted despite public antipathy and has survived and been strengthened by scientific rivalries Trust and ambiguity are entangled at the core of the Anglo American nuclear relationship The interplay between trust and ambiguity has influenced the way the nuclear partnership has been institutionalized at bureaucratic and technical levels but also the ways in which political actors and private citizens have maintained the relationship through periods of crisis moments of triumph and through decades of cultural reckoning with nuclear weapons From the days of the Manhattan Project through the crisis of Suez and criticism of Dr Strangelove to the end of the Cold War and into present day circumstances brought about by the JCPOA AUKUS and Russian nuclear threats over Ukraine Sharing Nuclear Secrets reveals that ambiguity is key to keeping the balance between sentiment and interests and the corresponding equilibrium between trust and mistrust in the special relationship      *Tainted Earth* Marianne Sullivan,2014-01-23 Smelting is an industrial process involving the extraction of metal from ore During this process impurities in ore including arsenic lead and cadmium may be released from smoke stacks contaminating air water and soil with toxic heavy metals The problem of public health harm from smelter emissions received little official attention for much for the twentieth century Though people living near smelters periodically complained that their health was impaired by both sulfur dioxide and heavy metals for much of the century there was strong deference to industry claims that smelter operations were a nuisance and not a serious threat to health It was only when the majority of children living near the El Paso Texas smelter were discovered to be lead exposed in the early 1970s that systematic independent investigation of exposure to heavy metals in smelting communities began Following El Paso an even more serious lead poisoning epidemic was discovered around the Bunker Hill smelter in northern Idaho In Tacoma Washington a copper smelter exposed children to arsenic a carcinogenic threat Thoroughly grounded in extensive archival research Tainted Earth traces the rise of public health concerns about nonferrous smelting in the western United States focusing on three major facilities Tacoma Washington El Paso Texas and Bunker Hill Idaho Marianne Sullivan

documents the response from community residents public health scientists the industry and the government to pollution from smelters as well as the long road to protecting public health and the environment Placing the environmental and public health aspects of smelting in historical context the book connects local incidents to national stories on the regulation of airborne toxic metals The nonferrous smelting industry has left a toxic legacy in the United States and around the world Unless these toxic metals are cleaned up they will persist in the environment and may sicken people children in particular for generations to come The twentieth century struggle to control smelter pollution shares many similarities with public health battles with such industries as tobacco and asbestos where industry supported science created doubt about harm and reluctant government regulators did not take decisive action to protect the public's health

*A Practice of Ethics for Global Politics* Jack L. Amoureux, 2015-10-05 What kind of ethics in world politics is possible if there is no foundation for moral knowledge or global reality is at least complex and contingent Furthermore how can an ethics grapple with difference a persistent and confounding feature for global politics This book responds to the call for a bold and creative approach to ethics that avoids assuming or aspiring to universality and instead prioritizes difference complexity and uncertainty by turning to reflexivity not as method or methodology but as a practice of ethics for politics This practice ethical reflexivity offers individuals organizations and communities tools to recognize interrogate and potentially change the stories they tell about politics about constraints notions of responsibility and visions of desirability The benefits and limits of ethical reflexivity are investigated by the author who engages writing on critique rhetoric affect and relationality and carefully considers dominant and alternative framings of difficult issues in International Relations IR the 1994 genocide in Rwanda and the US policies of enhanced interrogation and drone strikes This path breaking study provokes new possibilities for agency and action and contributes to a growing literature in IR on reflexivity by uniquely elaborating its promise as an ethics for politics and by drawing on thinkers less utilized in discussions of reflexivity such as Hannah Arendt Michel Foucault and Aristotle This book will appeal to scholars and upper level graduates in several sub fields of IR including international global ethics IR theory global governance international organizations non governmental organizations foreign policy analysis and US foreign policy

*Zones of Control* Pat Harrigan, Matthew G. Kirschenbaum, 2016-04-15 A look at wargaming's past present and future from digital games to tabletop games and its use in entertainment education and military planning With examples from Call of Duty Modern Warfare Harpoon Warhammer 40 000 and more Games with military themes date back to antiquity and yet they are curiously neglected in much of the academic and trade literature on games and game history This volume fills that gap providing a diverse set of perspectives on wargaming's past present and future In *Zones of Control* contributors consider wargames played for entertainment education and military planning in terms of design critical analysis and historical contexts They consider both digital and especially tabletop games most of which cover specific historical conflicts or are grounded in recognizable real world geopolitics Game designers and players will find the historical and

critical contexts often missing from design and hobby literature military analysts will find connections to game design and the humanities and academics will find documentation and critique of a sophisticated body of cultural work in which the complexity of military conflict is represented in ludic systems and procedures Each section begins with a long anchoring chapter by an established authority which is followed by a variety of shorter pieces both analytic and anecdotal Topics include the history of playing at war operations research and systems design wargaming and military history wargaming s ethics and politics gaming irregular and non kinetic warfare and wargames as artistic practice
