*Psychological and Motor Associations in Sports Performance: A Mental Approach to Sports* Marinella Coco,Alessandro Quartiroli,Donatella Di Corrado,2021-04-21 Normal Instructor and Teachers World ,1921 *Normal Instructor and Primary Plans* ,1921 The Forgotten Borough Kenneth M. Gold,2023-04-04 What sets Staten Island apart from the rest of New York City The island s identity has in part been defined in opposition to the city its physical and cultural differences and the perception of neglect by city government It has long been whiter wealthier less populated and more politically conservative And despite many attempts over the years Staten Island is not connected by the subway to any of the other four boroughs Kenneth M Gold argues that the lack of a subway connection has deeply shaped Staten Island s history and identity He chronicles decades of recurrent efforts to build a rail link using this history to explore the borough s fraught relationship with New York City as a whole The Forgotten Borough ranges from when Staten Island first contemplated joining the city in

the 1890s to the opening of the Verrazzano Narrows Bridge in 1964 highlighting pivotal moments when the construction of a subway appeared possible The economics and engineering of tunnel construction the difficulty of uniting Staten Islanders around a single solution competition from the other boroughs and resistance from powerful corporations and public authorities all undermined a rapid transit connection Gold demonstrates that the failure to establish a rail link during this period caused Staten Island to diverge culturally demographically and politically from the other four boroughs Drawing on extensive archival research *The Forgotten Borough* shows how transportation infrastructure and politics shed new light on urban history      **Engineering and Mining Journal** ,1907      **Military Weapons and Environment** Wing Commander (Dr) Umesh Chandra Jha,2017-10-15 Armed conflicts have become more complicated with the emphasis shifting towards new weapons such as drones cybercrime and autonomous weapons In July 2017 the UN General Assembly adopted the Treaty on the Prohibition of Nuclear Weapons This treaty prohibits a full range of nuclear weapon related activities such as undertaking to develop test produce manufacture acquire possess or stockpile nuclear weapons or other nuclear explosive devices as well as the use or threat of use of these weapons The ongoing conflicts have shown that the consequences of the use of explosive weapons are not limited to death physical injury and disability but also include long term impacts on mental well being The use of improvised weapons by States and non State actors is an area of concern for the environment Every State must therefore ensure that weapons used by their armed forces are explicitly adjudged under International Humanitarian Law IHL and Human Rights Law While reviewing a new weapon the States must adopt multilateral approaches drawing upon relevant legal health environmental and military expertise This book describes the environmental effects of eight weapons and explosive remnants of war that have caused extensive environmental harm in the recent past It also makes specific recommendations addressed to the international community and the States for protecting the natural environment from the impact of weapons of war This book will contribute towards a better understanding of the environmental harm caused by military weapons      **Volunteers in Sport: International perspectives** Geoff Nichols,2016-03-23 Volunteers are central to providing opportunities to play sport whether helping to run sports clubs helping in school sport or at sports events This volume focuses on the volunteers who support clubs Approximately 150 000 sports clubs in the UK are supported by volunteers in roles such as coaches treasurers membership secretaries and other formal roles as well as a myriad of other volunteers who help on a more informal basis This structure of clubs run by volunteers is common to other countries such as Germany Canada Finland and Australia It is a valuable community resource not only for the opportunities it provides for sports participation but also the more general contribution to the quality of communities This club structure has been central to government policy to increase sports participation and has developed from the second half of the 19th century Yet its maintenance relies on a nucleus of core volunteers in each club who take the major roles Recruiting new volunteers especially for these core roles is always difficult Despite central government in the UK

having a commitment to developing volunteering clubs are having to adjust to new relationships with local government as funding and subsidy of facility use is reduced Trends in sports participation are away from the traditional team sports and towards more individual participation Club members may demand an experience benchmarked against private or local government providers regarding the club as providing a service as much as an organisation they contribute to The chapters in this book contribute an international perspective to understanding these issues It will be of great value to community sport leaders and scholars of sport sociology and leisure studies This book was published as a special issue of the International Journal of Sport Policy and Politics

*This Crooked Way* Elizabeth Spencer, 2012-02-16 Elizabeth Spencer presents a vital moving story set in the deep South the Delta and Mississippi Hill Country Amos Dudley was a farm boy in the Delta at the turn of the century until he started working for his brother Ephraim in the store by the railroad It was an ordinary enough environment in which to begin to feel the strange forces that move a man to set his course in the world But the forces working within Amos were by no means ordinary Sometimes cruel sometimes suddenly tender they were strong and willful so that Amos became a man to reckon with to Ary his beautiful plantation born wife to the woman in the bayou to the shiftless philosopher Arney Even the rich black swamp soil which he wrested from the forest and gave to his cotton seemed to respond with awe and eagerness to Amos s will His sensuous wayward daughter and the man she loved especially felt the full shattering drama of the violence which had evidently been building building in the fate of a man who regardless takes his own crooked way
